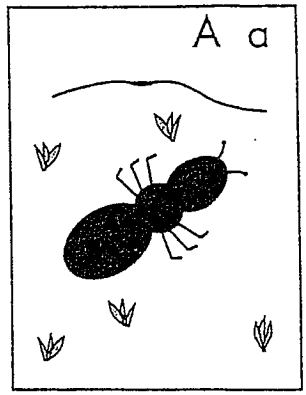
Ant

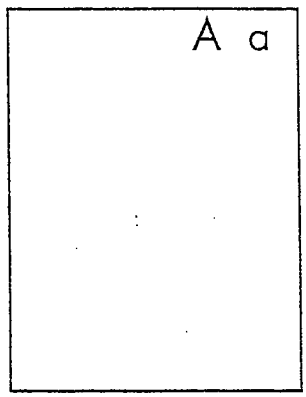


Materials:

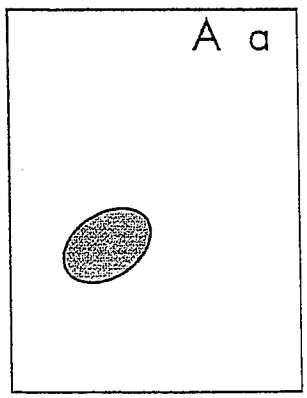
Background	1 Chartreuse rectangle	9″	x	12″
Letter				
Abdomen	1 Black rectangle	2″	x	3″
Thorax	1 Black square	1 1/2″	x	1 1/2″
Head	1 Black rectangle	1 1/2″	x	2″
Green and black crayons, pencil				

Vocabulary: insect, six, abdomen, thorax, head, chartreuse

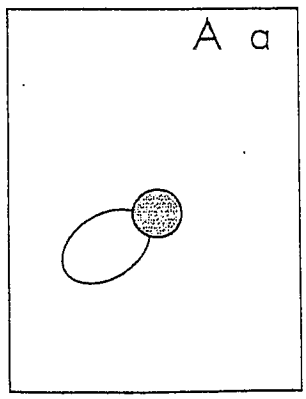
Directions:



1. **Background/letter:** chartreuse rectangle and letter
   - Place the chartreuse rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the chartreuse rectangle; place it in the upper right corner



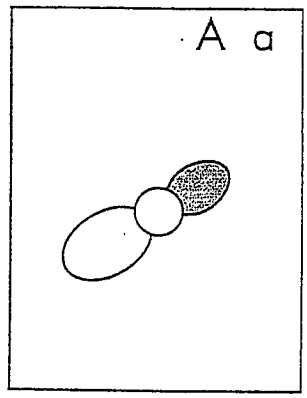
2. **Abdomen:** larger black rectangle
   - Cut off the corners of the black rectangle and round to make an oval for the abdomen
   - Put a dot of glue on the abdomen; glue the abdomen to the chartreuse rectangle in a diagonal position; place it a little below the middle of the rectangle on the left side



3. **Thorax:** black square
   - Cut off the corners of the black square and round to make a circle for the thorax
   - Put a dot of glue on the thorax; glue the thorax to the chartreuse rectangle; make it overlap the abdomen a little

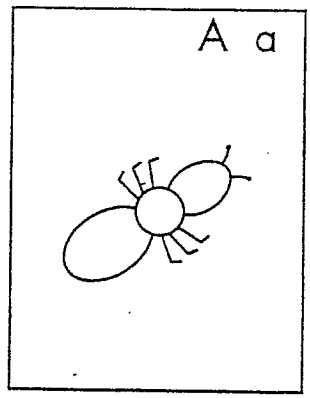
4. Head: smaller black rectangle

- Cut off the corners of the black rectangle and round to make a oval for the head
- Put a dot of glue on the head; lift the thorax and glue the head under the thorax



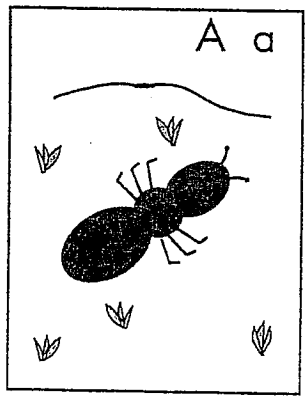
5. Legs/antenna: black crayon

- An ant is an insect so it will need six legs
- Draw three legs on one side of the thorax and three legs on the other side of the thorax
- Draw two lines on the head for the antennae



6. Base line/grass: green crayon

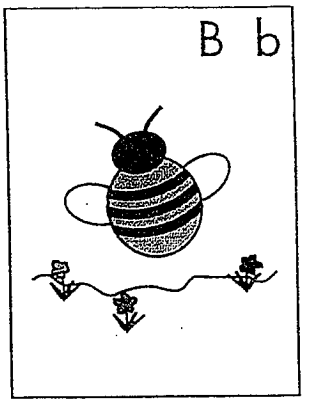
- Draw a horizontal line above the ant; make it curved like a small hill; make it go from one side of the page to the other not quite touching the sides of the rectangle
- Draw some tufts of grass with a green crayon



7. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Bee



Materials:

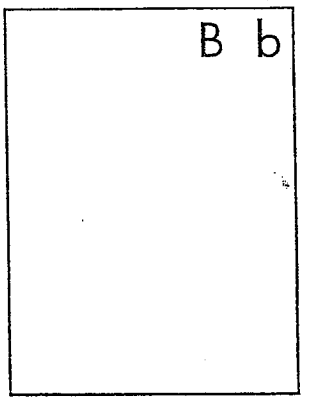
Background	1 Blue rectangle	9″	x	12″
Letter				
Body	1 Yellow square	4″	x	4″
Head	1 Black rectangle	2″	x	$2\frac{1}{2}$″
Stripes	1 Black rectangle	$1\frac{1}{2}$″	x	3″
Wings	1 White rectangle*	2″	x	5″

Green, bright, and black crayons, pencil

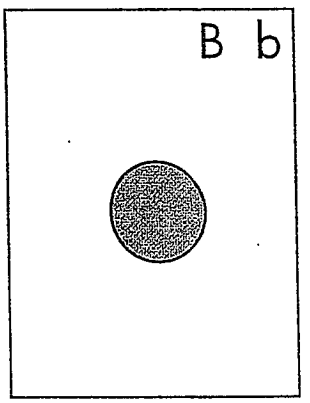
*Use tissue paper or another transparent paper

Vocabulary: antennae, stripes, wings, tissue paper

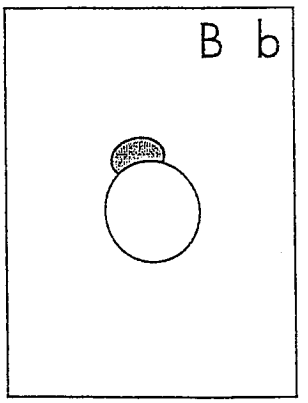
Directions:



1. **Background/letter:** blue rectangle and letter
   - Place the blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the blue rectangle; place it in the upper right corner

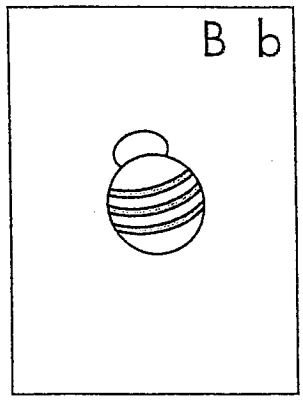


2. **Body:** yellow square
   - Cut off the corners of the square and round to make a circle for the body
   - Put a dot of glue on the body; glue the body to the blue rectangle; place it in the middle of the rectangle

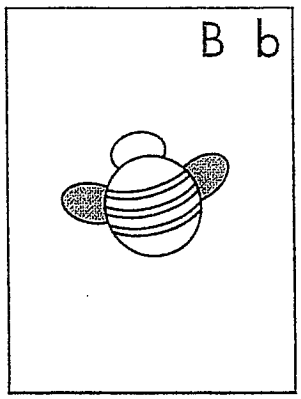


3. **Head:** shorter black rectangle
   - Cut off the corners of the rectangle and round to make an oval for the head
   - Put a dot of glue on the head; lift the body and glue the head under the body in a horizontal position

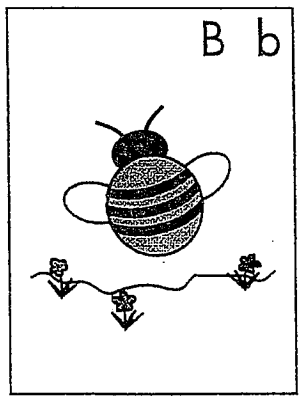
4. **Stripes:** longer black rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round
   - Cut three strips from the rectangle following the shape of the top of the rounded rectangle
   - Put a dot of glue on each end of one of the stripes; glue the stripe to the middle of the body; make it curve downward
   - Glue the other two stripes to the body in the same way; place one above the first stripe and one below it



5. **Wings:** white tissue rectangle
   - Fold the rectangle; cut off the corners and round to make two ovals for the wings
   - Put a dot of glue on one end of one of the wings; lift the body and glue the wing under the body on the left side
   - Glue the other wing under the right side of the body in the same way



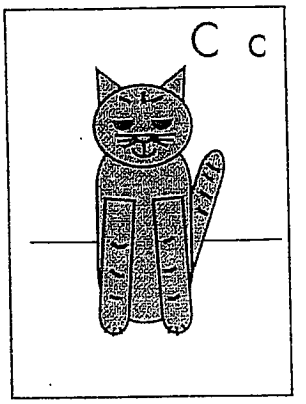
6. **Antennae/grass/flowers:** crayons
   - Use a black crayon to make antennae on the head
   - Use a green crayon to draw a base line across the blue rectangle under the bee
   - Use bright colors to make three flowers under or on the base line



7. **Name:** pencil
   - Turn your picture over and write your name in small letters in the bottom left corner

Cat

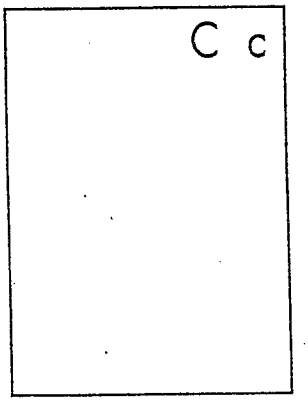
Materials:



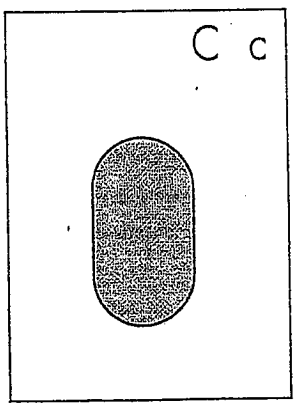
Background	1 White rectangle	9"	x	12"
Letter				
Body	1 Orange rectangle	3"	x	5"
Head	1 Orange rectangle	$2\frac{1}{2}$"	x	$3\frac{1}{2}$"
Legs	1 Orange rectangle	1"	x	8"
Ears	1 Orange square	$1\frac{1}{2}$"	x	$1\frac{1}{2}$"
Tail	1 Orange rectangle	1"	x	4"
Eyes	1 Black square	$\frac{3}{4}$"	x	$\frac{3}{4}$"
Nose	1 Pink rectangle	$\frac{1}{2}$"	x	$\frac{3}{4}$"
Orange and black crayons, pencil				

Vocabulary: semicircle, two, three, inch, claws, "U"

Directions:



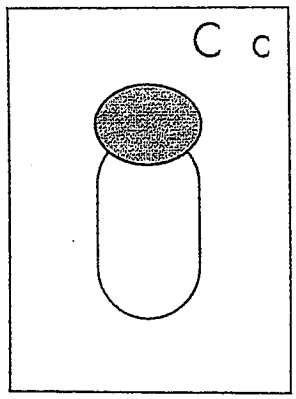
1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner



2. **Body:** largest orange rectangle
   - Cut off the corners of the rectangle and round to make an oval for the body
   - Put a dot of glue on each end of the body; glue the body to the white rectangle in a vertical position; place it in the middle of the rectangle

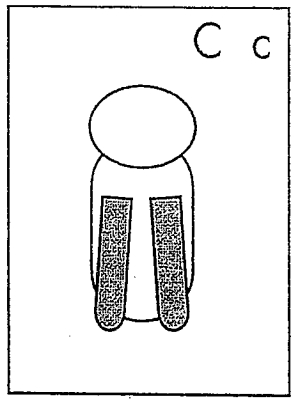
3. Head: next-largest or widest rectangle

- Cut off the corners of the rectangle and round to make an oval for the head
- Put a dot of glue on the head; glue the head to the body in a horizontal position; make it overlap the body a little



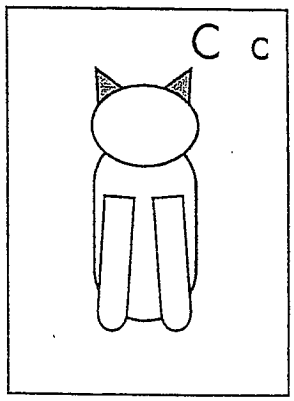
4. Legs: longer orange rectangle

- Fold the rectangle in half; hold the folded rectangle in a vertical position; cut off the top corners and round; open and cut on the fold line to make two legs
- Put a dot of glue on each end of one of the legs; glue the leg to one side of the body with the rounded end down; the rounded end of the leg should extend off of the body about an inch; glue the other leg to the other side of the body in the same way



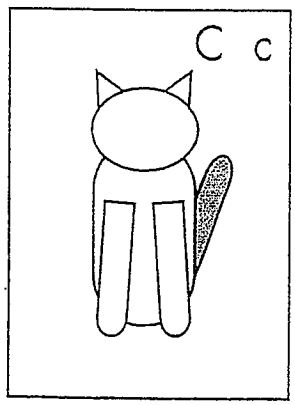
5. Ears: small orange square

- Cut the square on a diagonal line from corner to corner to make two triangles for the ears
- Put a dot of glue on the back of each ear; lift the head and glue the ears under the head with the points sticking up; place them near the outer edges of the top of the head

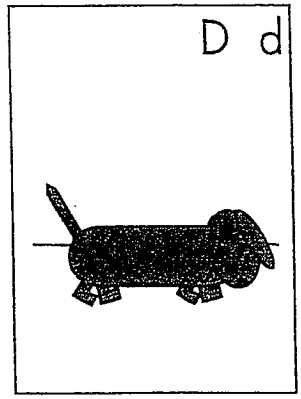


6. Tail: orange rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round to make the tail
- Put a dot of glue on each end of the tail
- Lift the body and glue the tail under the body; glue it near the bottom with the rounded end slanting up



Dog



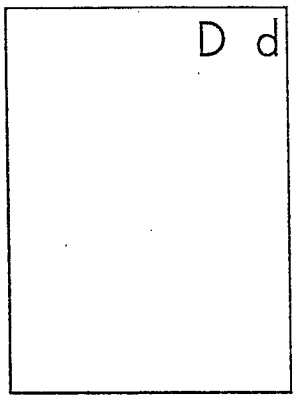
Materials:

Background	1 ~~Yellow~~ Light blue rectangle	9"	x	12"
Letter				
Body	1 Brown rectangle	$2\frac{1}{2}$"	x	6"
Head	1 Brown rectangle	2"	x	3"
Ears	1 Tan rectangle	1"	x	$5\frac{1}{2}$"
Legs	1 Brown rectangle	1"	x	5"
Tail	1 Brown rectangle	$\frac{1}{2}$"	x	$3\frac{1}{2}$"
Black crayon, pencil				

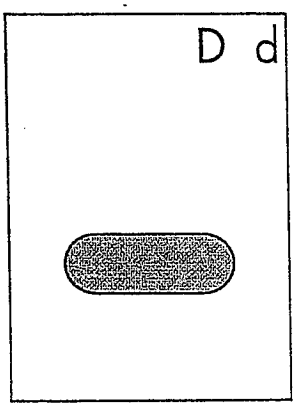
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level.

Vocabulary: Dachshund, "L", base line

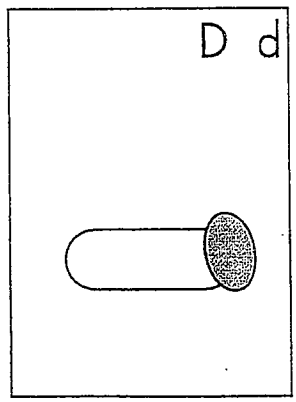
Directions:



1. **Background/letter:** yellow rectangle and letter
   - Place the yellow rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the yellow rectangle; place it in the upper right corner



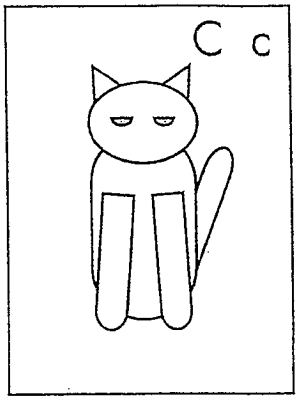
2. **Body:** largest brown rectangle
   - Cut off the corners of the rectangle and round to make a long oval for the body
   - Put a dot of glue on each end of the body; glue the body to the yellow rectangle in a horizontal position; place it in the middle of the rectangle



3. **Head:** next-largest rectangle
   - Cut off the corners of the rectangle and round to make an oval for the head
   - Put a dot of glue on each end of the head; glue the head to the body in a vertical position; make it overlap the body a little; slant it back a little

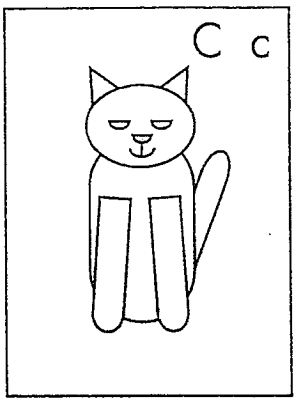
7. Eyes: black square

- Cut off the corners of the square to make a circle; cut the circle in half to make two semicircles for the eyes
- Put a dot of glue on each eye; glue the eyes to the cat's head in a horizontal position with the rounded side down; place one on each side near the middle of the head



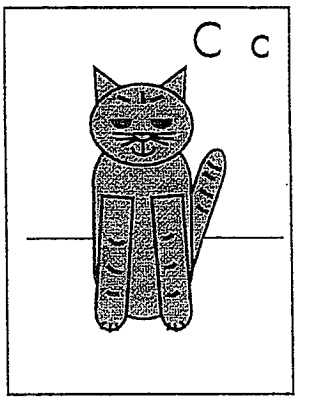
8. Nose: pink rectangle

- Hold the rectangle in a horizontal position; cut off the top corners and round to make a semicircle for the nose
- Put a dot of glue on the nose; glue the nose to the cat's head; place it below the eyes with the round side down
- Use a black crayon to make a short vertical line under the nose; make a small "U", a smile, at the bottom end of the vertical line for the cat's mouth



9. Base line/markings: orange and black crayons

- Use a black crayon to draw whiskers on the cat's face; draw three whiskers on each side of the nose
- Use an orange crayon to make markings on the cat; make three horizontally-curved lines on each leg; make curved lines on the cat's tail; draw a vertical line from the middle of the top of the cat's toward the nose; make slanted lines above the cat's eyes
- Use a black crayon to make three claws on the end of each leg
- Use a black crayon to draw a base line across the middle of the page; make it look as if it goes behind the cat

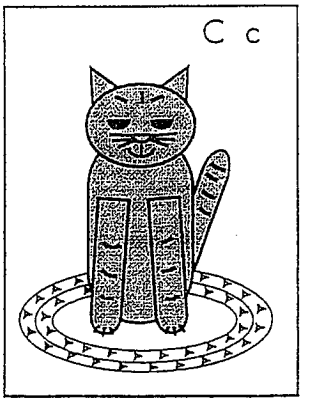


10. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

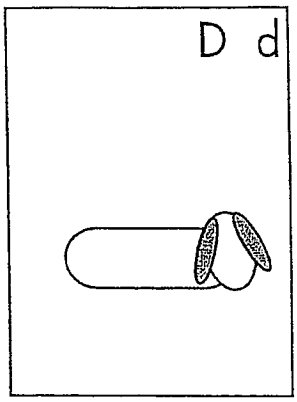
11. Rug (optional): crayons

- Instead of a base line, use crayons to make ovals around the bottom of the cat to make it look as if he is sitting on a rung; use different colors to make a pattern on the rug



4. Ears: tan rectangle

- Fold the rectangle in half; cut off the corners of the folded rectangle and round to make two ovals for the ears
- Put a dot of glue on one end of one of the ears; glue the ear to the head; place it near the top of the head on the left side; slant it outward a little
- Glue the other ear to the right side of the head in the same way

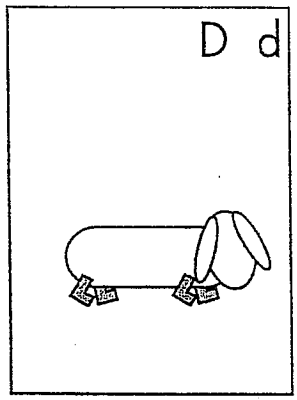


5. Legs: longer brown rectangle

- Fold the rectangle in half two times; open and cut apart on the fold lines to make four rectangles for the legs
- Hold one of the rectangles in a vertical position to make it into an "L" shape; starting at the bottom make a vertical cut in the rectangle, stopping a little way from the top; make a horizontal cut from the edge to the end of the cut to make an "L" shape
- Put a dot of glue on the top end of the leg; glue it on the body near the back

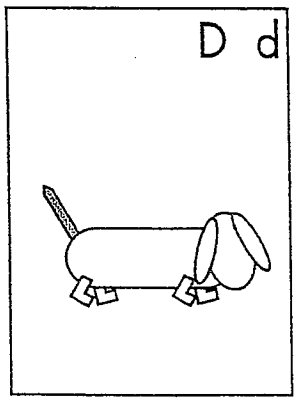
* Make another leg in the same way; lift the body and glue the leg under the body near the other back leg

- Make the front legs the same way; glue them in the same way to the front of the body



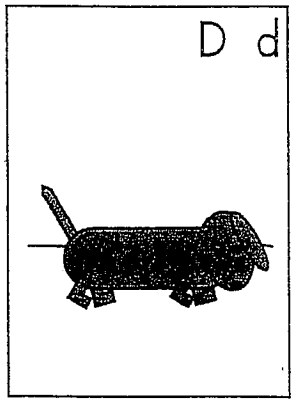
6. Tail: brown rectangle

- Hold the rectangle in a vertical position; cut off the top corners to make a point
- Put a dot of glue on the straight end of the tail; lift the body and glue the tail under the back of the body; make it point up



7. Eyes/nose/base line: black crayon

- Use a black crayon to make two black circles for the eyes
- Use a black crayon to make a circle for the nose at the bottom of the head
- Use a black crayon to make a base line behind the dog



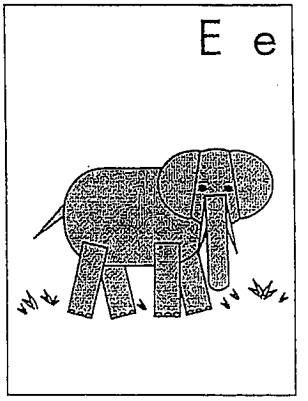
8. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Elephant

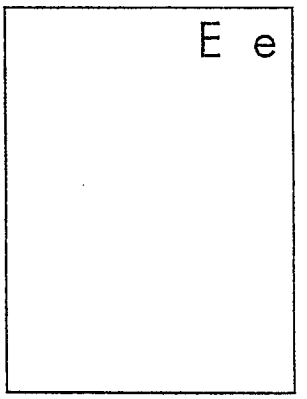
Materials:

Background	1 ~~Chartreuse~~ green rectangle	9"	x	12"
Letter				
Body	1 Gray rectangle	3 1/2"	x	5"
Head	1 Gray square	3"	x	3"
Ears	1 Gray rectangle	2 1/2"	x	3"
Legs	1 Gray rectangle	1 1/4"	x	11"
Trunk	1 Gray rectangle	1"	x	3 1/2"
Tusks	1 White rectangle	1/2"	x	2"
Green and black crayons, pencil				

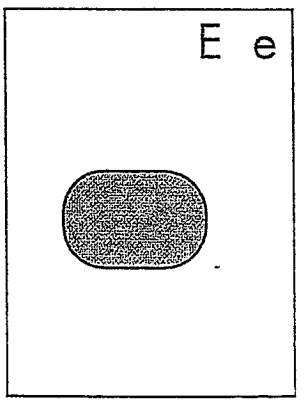


Vocabulary: trunk, tusks, hooves

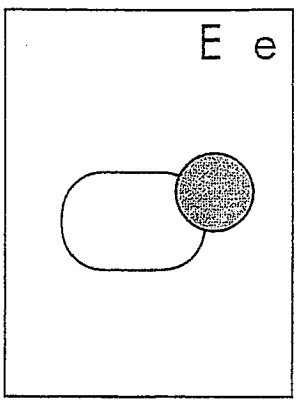
Directions:



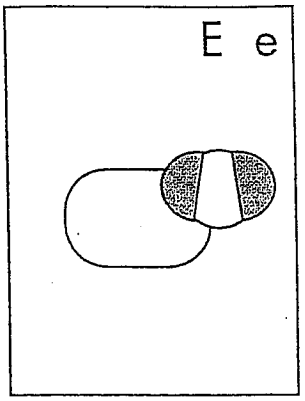
1. **Background/letter:** chartreuse rectangle and letter
   - Place the chartreuse rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the chartreuse rectangle; place it in the upper right corner



2. **Body:** largest gray rectangle
   - Cut off the corners of the rectangle and round to make an oval for the body
   - Put a dot of glue on each end of the body; glue the body to the chartreuse rectangle in a horizontal position; place it in the middle of the rectangle, a little closer to the left side

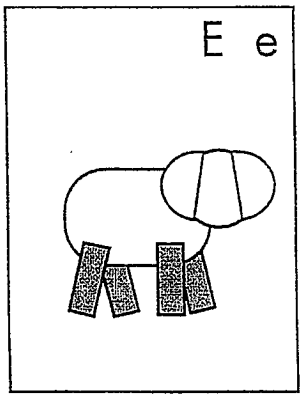


3. **Head:** gray square
   - Cut off the corners of the square and round to make a circle for the head
   - Put a dot of glue on the head; glue the head to the body; make it overlap the body a little



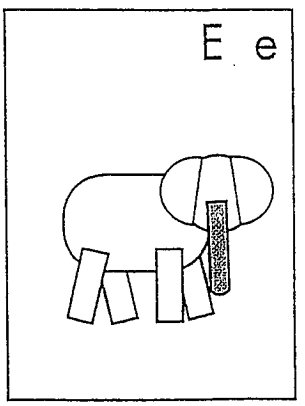
4. Ears: wider gray rectangle

- Fold the rectangle in half crosswise; hold the folded rectangle in a horizontal position; cut off the top corners and round; open and cut on the fold line to make two ears
- Put a dot of glue on each side of the head; glue the ears to the head with the rounded sides out



5. Legs: longer gray rectangle

- Fold the rectangle twice; open and cut apart on the fold lines to make four smaller rectangles for the legs
- Put a dot of glue on one end of one of the legs; lift the front of the elephant's body and glue the leg under the body, slanting it forward a little
- Put a dot of glue on the one end of another leg; glue the leg on top of the elephant's body; place it next to the first leg; slant it backward a little
- Put a dot of glue on a third leg; lift the elephants body and glue the leg under the body; place it near the back of the body and slant it forward a little
- Put a dot of glue on the last leg; glue the leg to the top of the elephant's body; place it near the other back leg; slant it backward a little

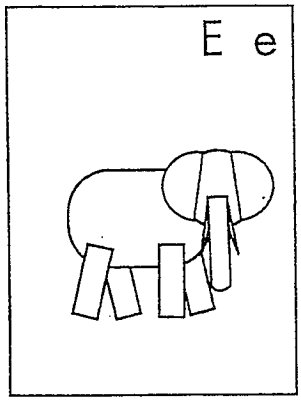


6. Trunk: long gray rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round to make the trunk
- Put a dot of glue on the straight end of the trunk
- Glue the trunk to the elephant's head; place it near the middle of the head with the round end pointing down

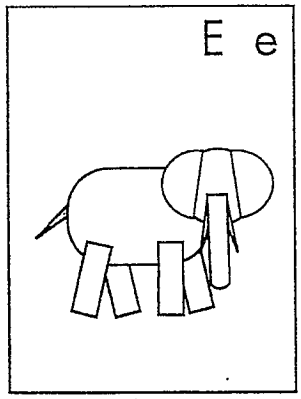
7. Tusks: white rectangle

- Cut the rectangle on a diagonal line from corner to corner to make two triangles for the tusks
- Put a dot of glue on the straight end of each tusk; lift the trunk and glue the tusks under the trunk, one on each side; make them slant out a little



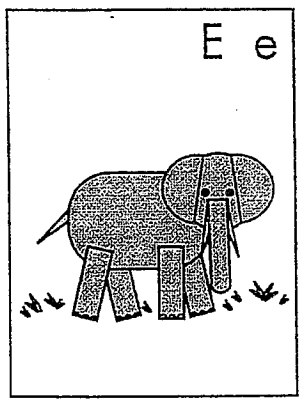
8. Tail: gray scrap

- Cut a scrap of gray into a tail, rectangular or triangular; make it a little more than an inch long
- Put a dot of glue on one end of the tail; lift the back of the body and glue the tail under the body



9. Eyes/hooves/grass: green and black crayons

- Use a black crayon to make two small black eyes on the elephant's head
- Use a black crayon to make hooves on each leg; draw three upside down "U"'s on the bottom of each leg
- Use a green crayon to make some tufts of grass on the chartreuse rectangle; place them on both sides of the elephant near his feet



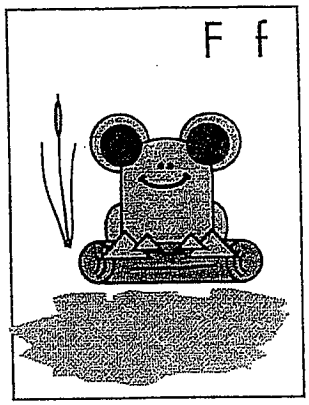
10. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Frog

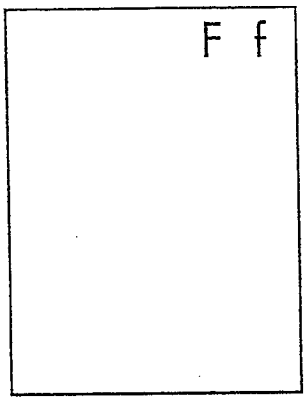
Materials:

Background	1 White rectangle	9″	x	12″
Letter				
Log	1 Brown rectangle	$1\frac{3}{4}$″	x	$7\frac{1}{2}$″
Body	1 Green rectangle	4″	x	5″
Eyes (back)	1 Green rectangle	2″	x	4″
Eyes	1 Black rectangle	$1\frac{1}{2}$″	x	3″
Hind legs	1 Green square	2″	x	2″
Hind feet	1 Green square	$1\frac{1}{2}$″	x	$1\frac{1}{2}$″
Front feet	1 Green square	1″	x	1″
Green, blue, brown, and black crayons, pencil				

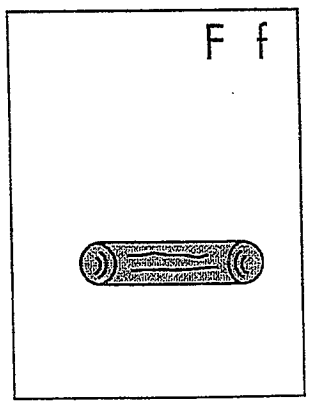


Vocabulary: hind, log, nostrils, stem, leaves, cattail

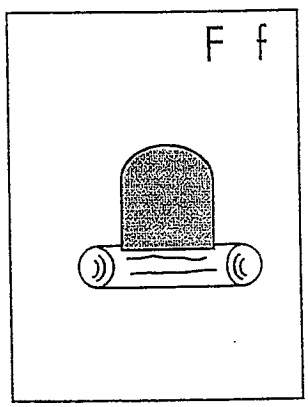
Directions:



1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner

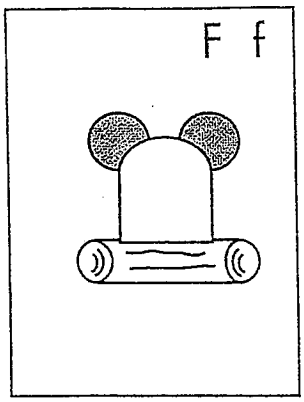


2. **Log:** brown rectangle
   - Cut off the corners of the rectangle and round to make a long oval for the log
   - Put a dot of glue on each end of the log; glue the log to the white rectangle in a horizontal position; place it in the middle of the rectangle a little closer to the bottom of the rectangle
   - Use a brown crayon to mark the log; make a curved line at each end to make an oval; make two smaller curved lines inside each oval

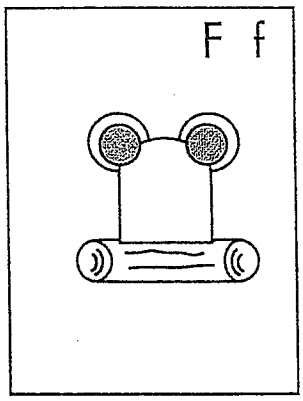


3. **Body:** larger green rectangle
   - Hold the rectangle in a vertical position; cut off the top corners and round for the top of the frog
   - Put a dot of glue on the body; glue the body to the white rectangle in a vertical position with the rounded end at the top; make it overlap the log a little

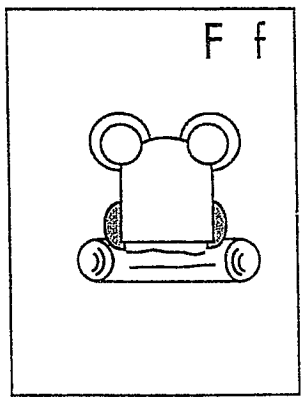
4. **Eyes (back):** smaller green rectangle
   - Fold the rectangle in half; cut off the corners of the folded rectangle and round to make two circles for the eyes
   - Put a dot of glue near the edge of one circle; lift up the frog's body and glue the circle underneath it on the left side; glue the other circle in the same way on the right side



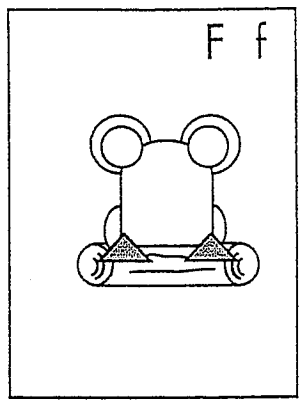
5. **Eyes:** black rectangle
   - Fold the rectangle in half; cut off the corners of the folded rectangle and round to make two circles for the eyes
   - Put a dot of glue on each black eye; glue the black circles on the top corners of the body; make them fit inside the green circles



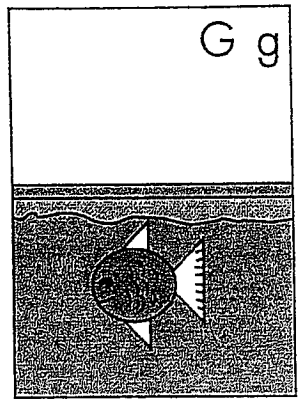
6. **Hind legs:** biggest green square
   - Cut off the corners of the square and round to make a circle; fold the circle, open it and cut apart on the fold to make two semicircles
   - Put a dot of glue on the straight edge of one of the semicircles; lift the body and glue the semicircle under the left side with the curved part showing at the side; a little of the semicircle should show at the bottom of the body
   - Glue the other semicircle on the right side of the body in the same way



7. **Hind feet:** middle-sized green square
   - Cut the square on a diagonal line from corner to corner to make two triangles for the feet
   - Put a dot of glue on the bottom corners of the body; glue the triangles to the body; place them so a point of each triangle is up and a straight edge of each triangle is at the bottom



Goldfish

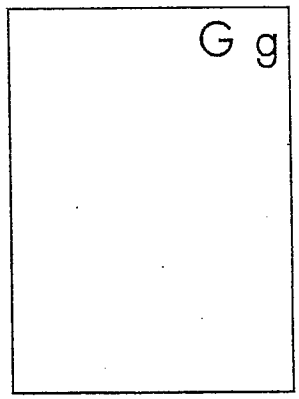


Materials:

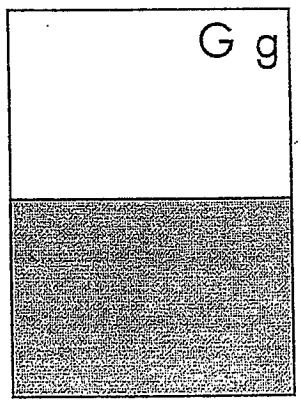
Background	1 White rectangle	9″	x	12″
Letter				
Aquarium	1 Light blue rectangle	7″	x	9″
Water	1 Turquoise rectangle	6″	x	9″
Aquarium Rim	1 Gray rectangle	3/4″	x	9″
Body	1 Orange rectangle	2 1/2″	x	3″
Tail/Fins	1 Yellow square	2″	x	2″
Black crayon, pencil				

Vocabulary: aquarium, fins, scales

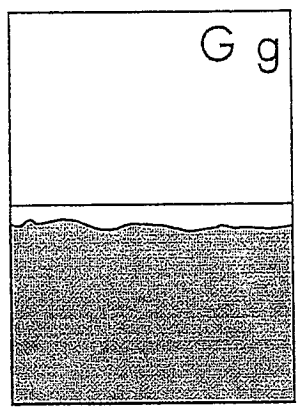
Directions:



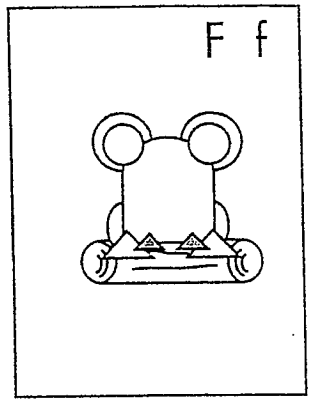
1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner



2. **Aquarium:** light blue rectangle
   - Put a dot of glue on each corner of the rectangle; glue the light blue rectangle to the white rectangle in a horizontal position; match the bottom edges and the sides so that none of the white rectangle shows

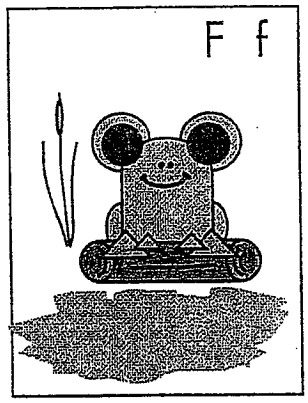


3. **Water:** turquoise rectangle
   - Hold the rectangle in a vertical position; tear off a narrow strip on one side of the rectangle
   - Put a dot of glue on each corner of the rectangle; glue the turquoise rectangle to the light blue rectangle in a horizontal position with the torn edge at the top; match the bottom edges and the sides so that none of the light blue rectangle shows



8. Front feet: smallest green square

- Cut the square on a diagonal line from corner to corner to make two triangles for the feet
- Put a dot of glue on the back of each triangle; glue the triangles to the bottom of the body; place them so a point of each triangle is up and a straight edge of each triangle is at the bottom; make them overlap the hind feet a little



9. Water/cattail/markings: green, blue, brown and black crayons

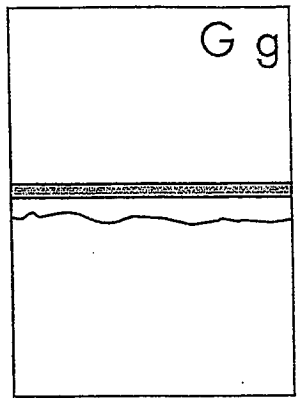
- Use a black crayon to make a big smile on the frog; put two small dots between the eyes for the frog's nostrils
- To make the stem of the cattail use a green crayon to draw a vertical line next to the left side of the frog; make a slanted line on each side of the stem for the leaves
- Use a brown crayon to make the cattail; make a long thin oval on top of the stem; use a black crayon to make a short vertical line on top of the oval
- * Use the side of a blue crayon to make some water at the bottom of the page, under the log

10. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

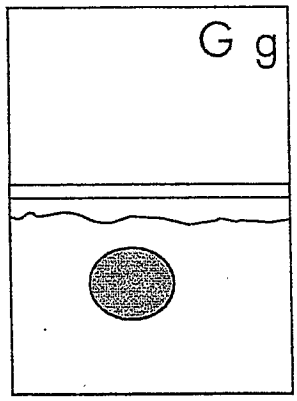
4. Rim: gray rectangle

- Put a dot of glue on each end of the gray rectangle; glue the gray rectangle to the top of the light blue rectangle; make it overlap the light blue rectangle just a little



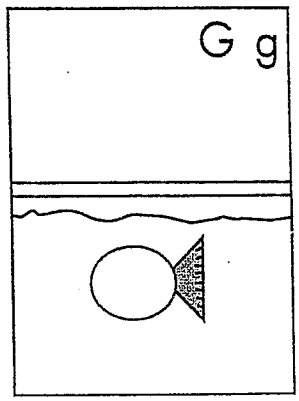
5. Body: orange rectangle

- Cut off the corners of the rectangle and round to make an oval for the fish's body
- Put a dot of glue on the body; glue the body to the water; place it so there will be room for a fin on the top



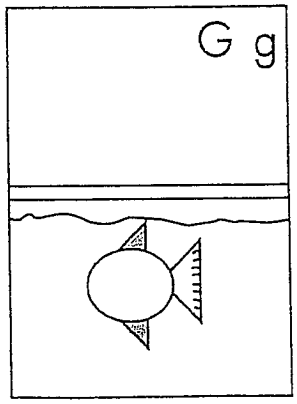
6. Tail: yellow square

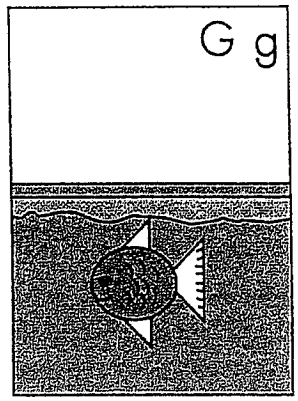
- Cut the square on a diagonal line from corner to corner to make two triangles
- Use one of the triangles for the tail; save the other triangle for the fins
- Hold one of the triangles by the point; fringe the wide side of the triangle, make small cuts on that side
- Put a dot of glue on the point of the triangle; lift the body and glue the fin under the body with the point under the body and the fringe at the back



7. Fins: triangle saved from Step 6

- Cut the triangle in half, from the point to the opposite wide side to make two smaller triangles
- Put a dot of glue on the point of the triangle; lift the body and glue the fin under the body; place it at the top with one point of the triangle under the body and the opposite point sticking up
- Make the other fin the same way; glue the fin under the bottom of the body





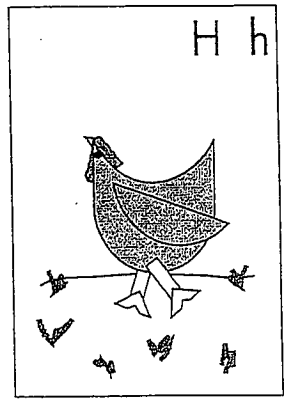
8. Eye/mouth: black crayon

- Use a black crayon to make a circle for the fish's eye
- Use a black crayon to make a mouth for the fish
- Use a black crayon to make some scales on the body

9. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Hen

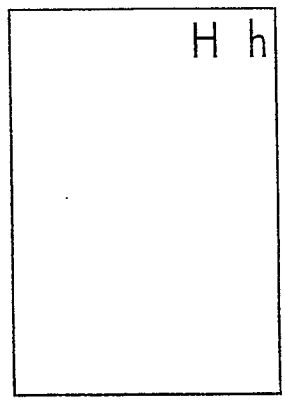


Materials:

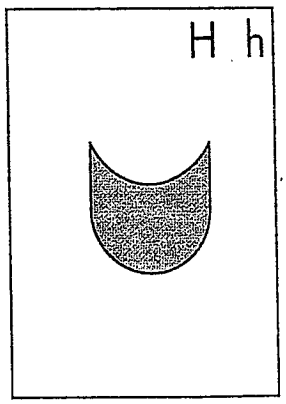
Background	1 Light blue rectangle	9"	x	12"
Letter				
Body/wing	1 Brown square	$4\frac{1}{2}$"	x	$4\frac{1}{2}$"
Comb/wattle	1 Red rectangle	$\frac{1}{2}$"	x	$2\frac{1}{2}$"
Legs	1 Yellow rectangle	$\frac{1}{2}$"	x	3"
Feet	1 Yellow square	1"	x	1"
Beak/eye	1 Yellow square	$\frac{1}{2}$"	x	$\frac{1}{2}$"
Green, brown, and black crayons, pencil				

I don't have yellow
maybe orange
beige

beak

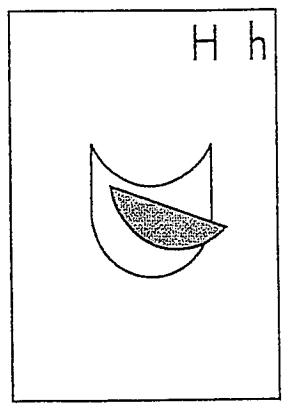


blue rectangle and letter
on the table in a vertical position
ner of the back of the letter; glue
angle; place it in the upper right



2. Body: brown rectangle

- Cut a wide "U" shape out of the top side; cut from one side corner to the other side corner; save this piece for the wing
- Hold the other piece with the "U" cut at the bottom; cut off the top corners and round
- Put two dots of glue on the back of the body; glue the body to the middle of the light blue rectangle with the "U" cut at the top

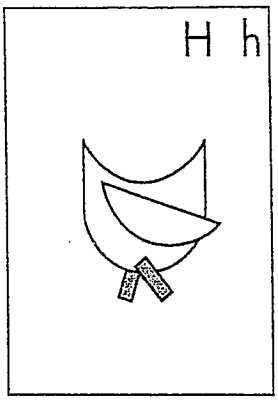


3. Wing: piece saved from step 1

- Put a dot of glue on each end of the wing; glue the wing to the body with the straight edge at the top; place the wing in the middle of the body; slant it downward a little with the end of the wing off the body

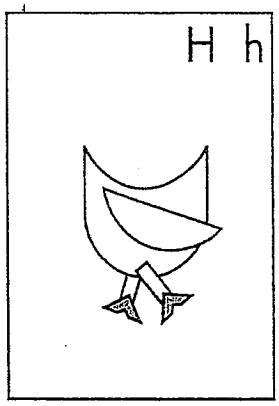
4. Legs: yellow rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two smaller rectangles for the legs
- Put a dot of glue on one of the legs; lift the bottom of the body; glue the leg under the body near the middle; make it slant forward a little
- Glue the other leg the same way; make it slant backward a little



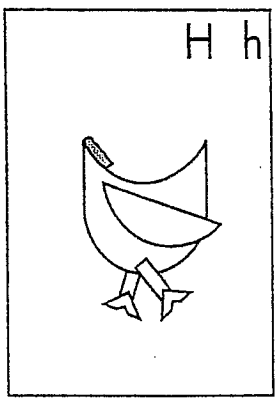
5. Feet: larger yellow square

- Cut the square on a diagonal line from corner to corner to make two triangles for the feet; make a small upside-down "V" cut in the wide side of each triangle
- Put a dot of glue on the end of each leg; glue the feet to the legs with the "V" cut at the bottom



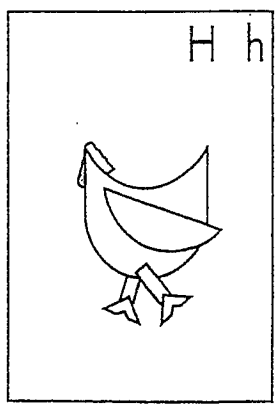
6. Comb: red rectangle

- Fold the rectangle; open and cut apart to make two smaller rectangles; save one of the rectangles for the wattle
- Cut off the corners of one of the rectangles and round; make small cuts on one side of the rectangle to make it look uneven
- Put a dot of glue on the comb; lift the head and glue the comb under the head in a slanted position; place the comb at the top of the head with the uneven edge showing

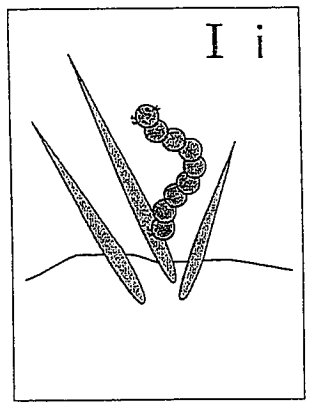


7. Wattle: rectangle saved from Step 6

- Cut off the corners of the rectangle and round; make small cuts on one side of the rectangle to make it look uneven
- Put a dot of glue on the wattle; lift the head and glue the wattle under the head in a vertical position; place the wattle under the side of the head with the uneven edge showing



Inchworm



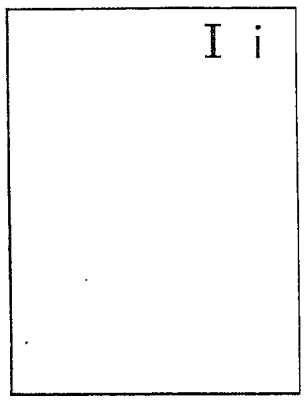
Materials:

Background	1 White rectangle	9″	x	12″
Letter				
Blade of grass	1 Dark green rectangle	3/4″	x	7 1/2″
Blades of grass	1 Dark green rectangle	3/4″	x	12″
Body	1 Chartreuse rectangle	1″	x	8″
Head	1 Chartreuse square	1″	x	1″
Green and black crayons, pencil				

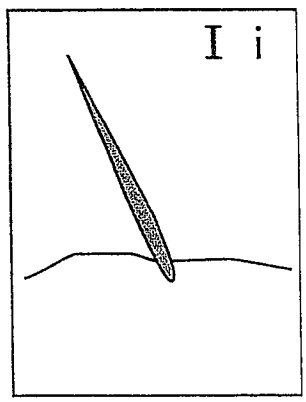
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level.

Vocabulary: blade of grass, inchworm, segment, chartreuse, three inches, tapered

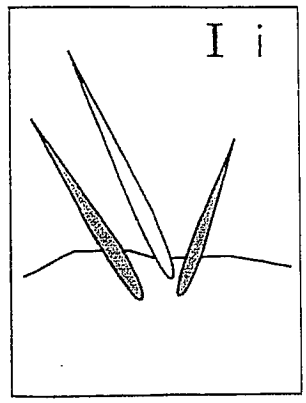
Directions:



1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner



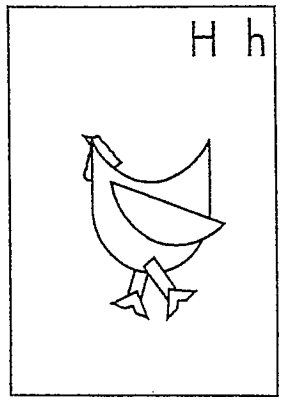
2. **Base line/blade of grass:** green crayon and shorter dark green rectangle
   - Use a green crayon to draw a line from one side of the white rectangle to the other side of the white rectangle for the base line; place it near the middle of the white rectangle
   - Hold the dark green rectangle in a vertical position; cut off the top corners and round; turn the rectangle upside-down; cut off the corners to make a point; start the cuts about three inches from the top so the blade of grass is tapered
   - Put a dot of glue on each end of the blade of grass; glue the blade of grass in a to the white rectangle in a slanted position with the point at the top; place it a little below the base line



3. **Blades of grass:** longer dark green rectangle
   - Fold the rectangle; open and cut apart on the fold line to make two shorter rectangles for two blades of grass
   - Make the two blades of grass the same way the first blade of grass was made
   - Glue the blades of grass on the left and right sides of the first blade of grass; slant them outward a little

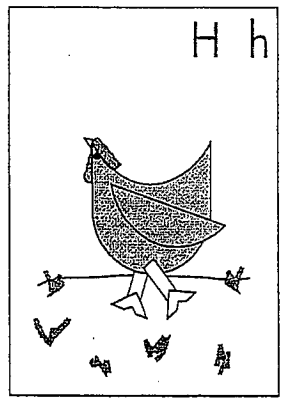
8. Beak: smaller yellow square

- Cut off a corner of the square to make the beak; save the rest of the square to make the eye
- Put a dot of glue on the beak; lift the head; glue the beak under the head with the point sticking up



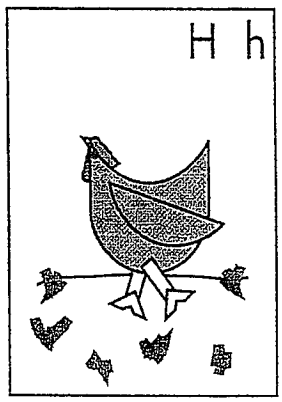
9. Eye: piece saved from Step 7

- Cut off the corners and round to make a circle for the eye
- Put a dot of glue on the eye; glue the eye to the head; place it on the head between the comb and the wattle



10. Eye/base line/grass: green, brown, and black crayons

- Use a black crayon to make a circle on the yellow eye
- Use a brown crayon to draw a base line from one side of the light blue rectangle to the other behind the hen
- Use a green crayon to make some tufts of grass on and below the base line

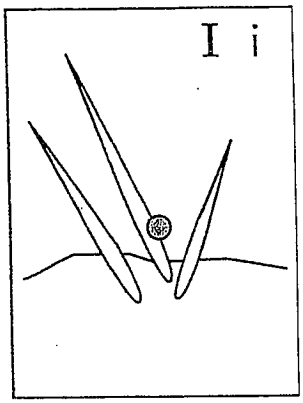


11. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

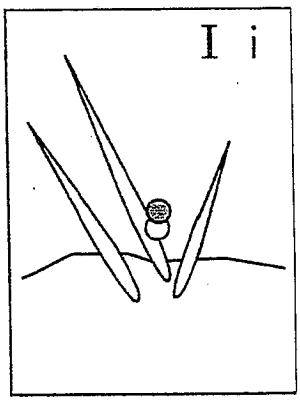
4. Body: long chartreuse rectangle

- Fold the long rectangle in half; open and cut apart on the fold line to make two smaller rectangles; fold one of the smaller rectangles in half; fold it in half again; open and cut apart on the fold lines to make four squares
- Fold the other rectangle twice; make four more squares; you have eight squares for the body segments
- Cut off the corners of one of the squares and round to make a circle
- Put a dot of glue on the circle; glue the circle to the middle blade of grass; place it near the bottom of the blade of grass



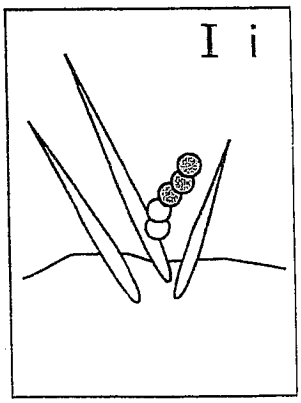
5. Body: chartreuse square from Step 4

- Cut off the corners of the square and round to make a circle
- Put a dot of glue on the circle; glue the circle to the top of the first circle; make it overlap the first circle a little



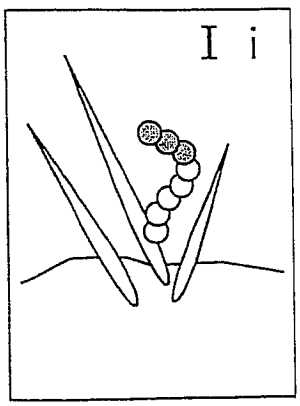
6. Body: three chartreuse squares from Step 4

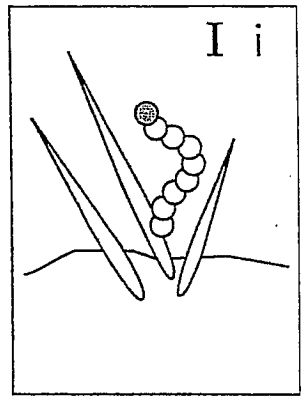
- Cut off the corners of three more squares to make three circles
- Glue the circles in a row to the second circle; make them slant away from the blade of grass a little; make them overlap a little



7. Body: three chartreuse squares from Step 4

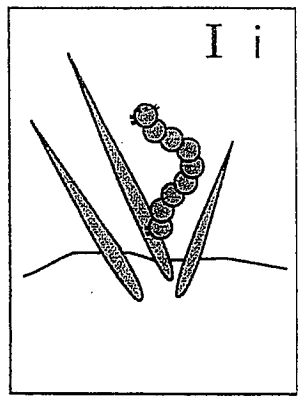
- Cut off the corners of three more squares to make three circles
- Glue the circles in a row to the last circle; make them slant toward the blade of grass a little; make them overlap a little





8. Head: chartreuse square

- Cut off the corners of the square and round to make a circle; glue the circle to the last circle; make it overlap a little



9. Antennae/feet/eye: black crayon

- Use a black crayon to make a circle on the inchworm's head for the eye
- Use a black crayon to make antennae on the head
- Use a black crayon to make two feet on the first circle and the last circle; an inchworm has feet on its front end and rear end, but no feet in the middle

10. Name: pencil

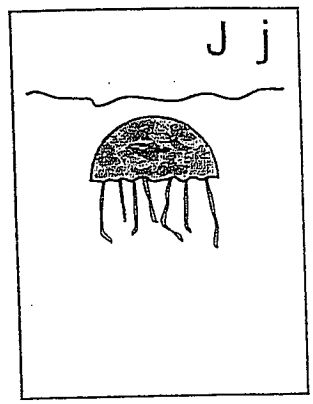
- Turn your picture over and write your name in small letters in the bottom left corner

Jellyfish

Materials:

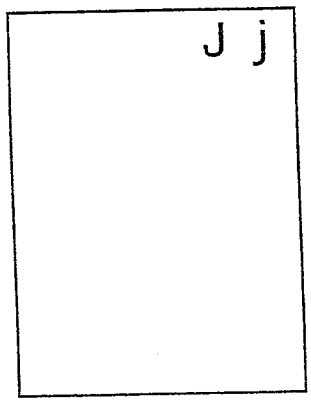
Background	1 Royal blue rectangle	9″	x	12″
Letter				
Body*	1 Light blue rectangle	$3\frac{1}{2}$″	x	6″
Tentacles	5 Pastel ribbons, curled	5″ long		
Black crayon, pencil				

*Note: Special paper for the jellyfish body can be made ahead of time by the teacher or students. Use a shallow pan that can hold a 9″ x 12″ piece of white construction paper. Put water in the pan. Scrape blue, magenta, and green chalk on the water. Lay the piece of construction paper on the water so the chalk adheres to the paper. You can get nine jellyfish out of one piece of 12″ x 18″ construction paper.

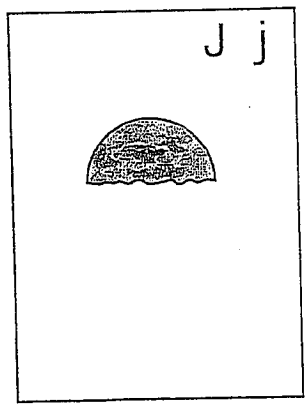


Vocabulary: jellyfish, wavy, tentacles, royal blue, pastel

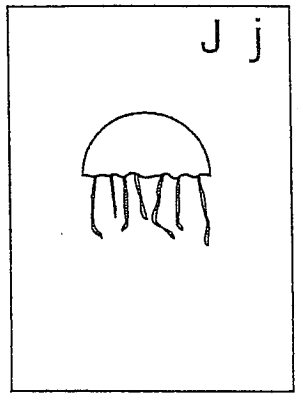
Directions:



1. **Background/letter:** royal blue rectangle and letter
   - Place the royal blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the royal blue rectangle; place it in the upper right corner

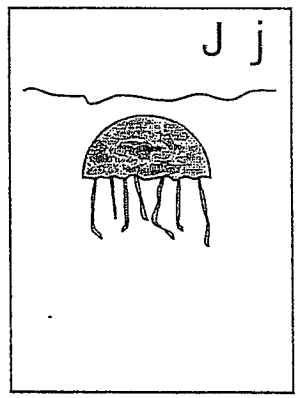


2. **Body:** light blue or prepared-paper rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round to make a half circle for the body; cut a wavy line on the straight edge of the body
   - Put a dot of glue on the back of the body; glue the jellyfish body to the royal blue rectangle; place it in the middle of the rectangle in a horizontal position with the curved part at the top



3. Tentacles: curled ribbons

- Put a dot of glue on one end of one of the ribbons; lift the jellyfish and glue the end of the ribbon under the jellyfish
- Glue the other ribbons to the jellyfish in the same way



4. Base line: black crayon

- Use a black crayon to draw a wavy line from one side of the royal blue rectangle to the other side; place the line above the jellyfish for the top of the ocean

5. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Koala Bear

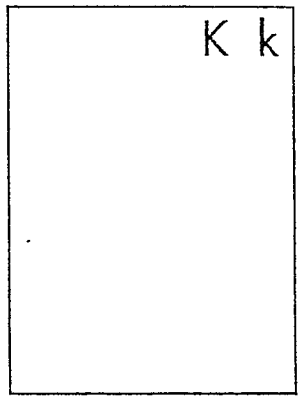
Materials:

Background	1 Chartreuse rectangle	9"	x	12"
Letter				
Tree trunk	1 Brown rectangle	$1\frac{1}{2}$"	x	11"
Body	1 Gray rectangle	3"	x	$4\frac{1}{2}$"
Head	1 Gray square	$2\frac{1}{2}$"	x	$2\frac{1}{2}$"
Ears	1 Gray rectangle	$1\frac{1}{2}$"	x	3"
Legs	1 Gray rectangle	1"	x	5"
Nose	1 Black rectangle	$\frac{3}{4}$"	x	$1\frac{1}{2}$"
Leaves	2 Green rectangles	$\frac{1}{2}$"	x	10"
Black crayon, pencil				

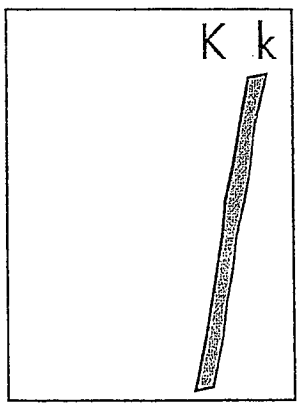
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level.

Vocabulary: koala bear, eucalyptus tree, trunk, five inches, branch, slant, wavy, fringe

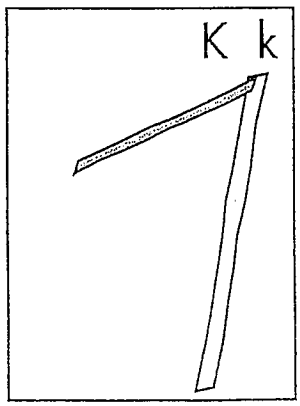
Directions:



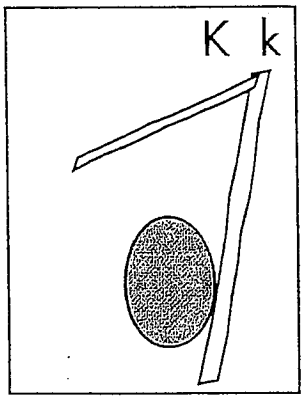
1. **Background/letter:** chartreuse rectangle and letter
   - Place the chartreuse rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the chartreuse rectangle; place it in the upper right corner



2. **Tree trunk:** brown rectangle
   - Hold the brown rectangle in a vertical position; tear off a narrow strip on each side; save a narrow strip for the branch
   - Put a dot of glue on each end of the wide strip, the tree trunk; glue the trunk to the chartreuse rectangle in a vertical position; place it near the right side of the chartreuse rectangle slant it a little

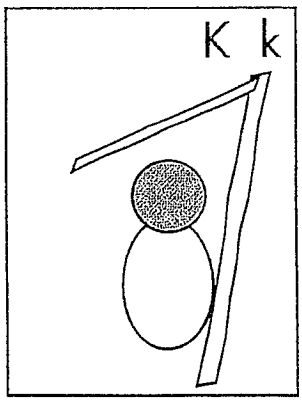


3. **Branch:** narrow brown strip from Step 2
   - Cut the strip so it is about five inches for the branch
   - Put a dot of glue on each end of the branch; glue the branch to the tree trunk; place it at the top slant it downward a little



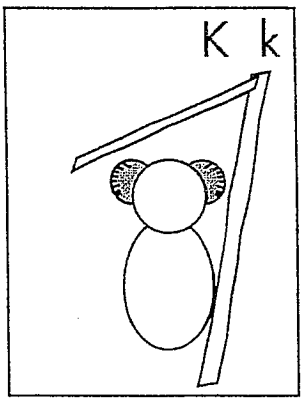
4. Body: largest gray rectangle

- Cut off the corners of the rectangle and round to make an oval for the body
- Put a dot of glue on the body; glue the body to the chartreuse rectangle in a vertical position; place it next to the bottom of the tree trunk



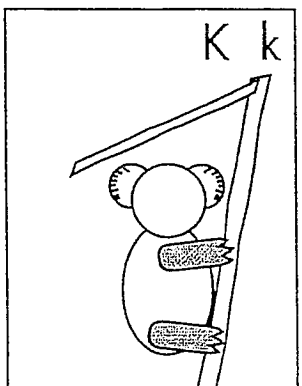
5. Head: gray square

- Cut off the corners of the square and round to make a circle for the head
- Put a dot of glue on the head; glue the head to the top of the body; make it overlap the body a little



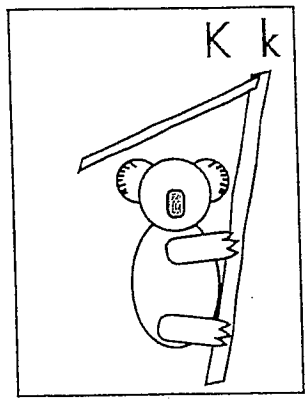
6. Ears: shorter gray rectangle

- Fold the rectangle; cut off the corners and round to make two ovals for the ears; fringe the edges of the ears
- Put a dot of glue on one of the ears; lift the head and glue the ear under the head in a horizontal position; place it near the top of the head
- Glue the other ear to the other side of the head in the same way



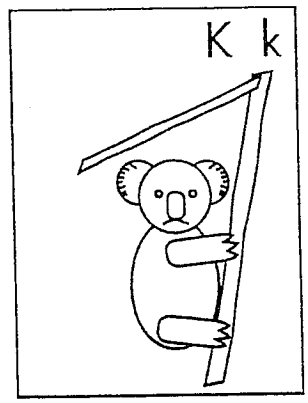
7. Legs: longer gray rectangle

- Fold the rectangle; hold the folded rectangle in a vertical position; cut off the top corners and round; turn the folded rectangle upside-down; make some "V" cuts in the top end of the rectangle; open and cut apart on the fold line to make two legs
- Put a dot of glue on the rounded end of one of the legs; glue the leg to the top of the body; make the "V" cut end overlap the tree trunk a little
- Glue the other leg to the bottom of the body in the same way



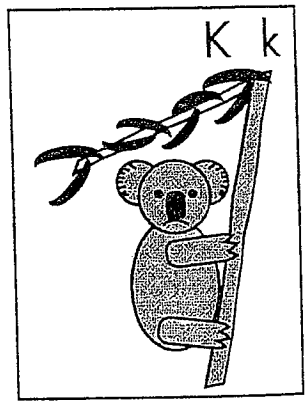
8. Nose: black rectangle

- Cut off the corners of the rectangle and round to make an oval for the nose
- Put a dot of glue on the nose; glue the nose to the head in a vertical position; place it in the middle on the bottom half of the head



9. Eyes/mouth: black crayon

- Use a black crayon to make two circles for the eyes; place them on each side of the top of the nose
- Use a black crayon to make a mouth; draw a wide upside-down "U", an upside-down smile, under the nose; make it touch the bottom of the nose



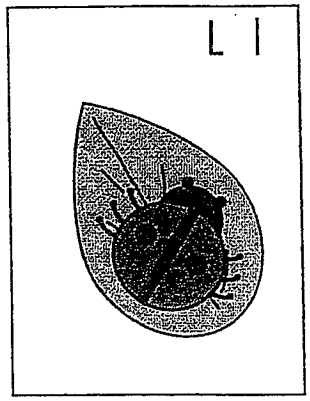
10. Leaves: two green rectangles

- Fold one of the green rectangles in half; fold it in half again
- Hold the folded rectangle in a horizontal position; cut off the top corners and round
- Open the folded rectangle and cut apart on the fold to make four leaves
- * Fold and cut the other rectangle in the same way to make four more leaves
- Put a dot of glue on each leaf; glue the leaves to the branch; make them slant downward

11. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Ladybug

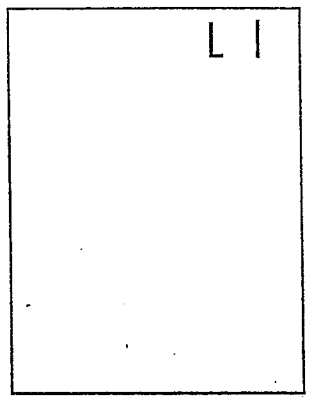


Materials:

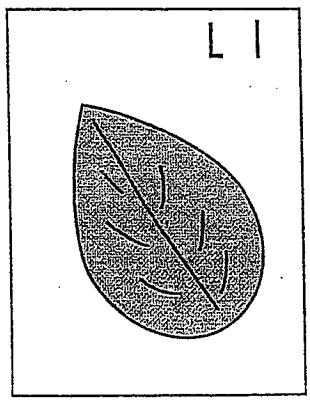
Background	1 Gray rectangle	9"	x	12"
Letter				
Leaf	1 Dark green rectangle	5"	x	7"
Body	1 Red square	$3\frac{1}{2}$"	x	$3\frac{1}{2}$"
Head	1 Black square	2"	x	2"
Stripe	1 Black rectangle	$\frac{1}{4}$"	x	$3\frac{1}{2}$"
Spots	1 Black rectangle	$\frac{3}{4}$"	x	$1\frac{1}{2}$"
Green and black crayons, pencil				

Vocabulary: ladybug, insect, antennae, veins

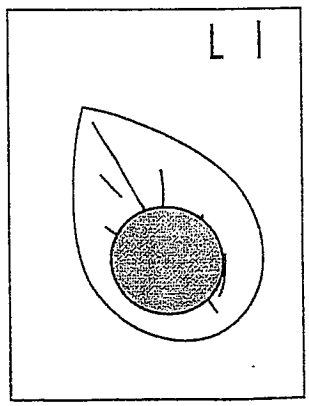
Directions:



1. **Background/letter:** gray rectangle and letter
   - Place the gray rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the gray rectangle; place it in the upper right corner

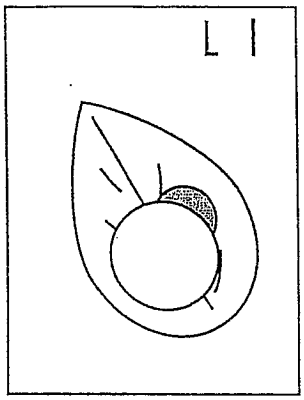


2. **Leaf:** green rectangle
   - Hold the rectangle in a vertical position; cut off the top corners and round; turn the rectangle upside-down; cut off the top corners and make a point
   - Use a green crayon to make veins on the leaf; draw a line from the point of the leaf to the rounded end of the leaf; make short lines on each side of the first line; make them slant upward
   - Put a dot of glue on each end of the leaf; glue the leaf in a slanted position to the middle of the gray rectangle with the rounded end at the bottom

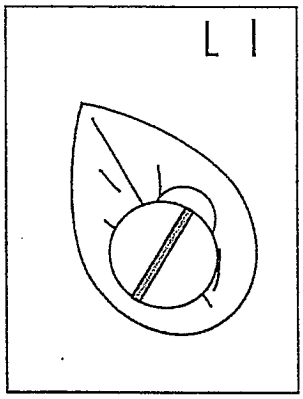


3. **Body:** red square
   - Cut off the corners of the square and round to make a circle for the body
   - Put a dot of glue on the body; glue the body to the middle of the leaf

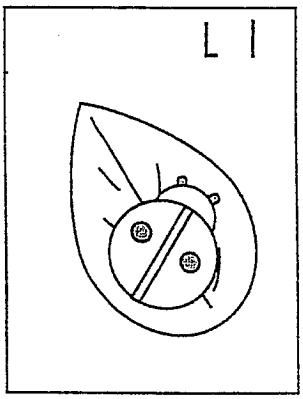
4. **Head:** black square
   - Cut off the corners of the square and round to make a circle for the head
   - Put a dot of glue on the head; lift the body and glue the head under the body; the body should overlap the head a little



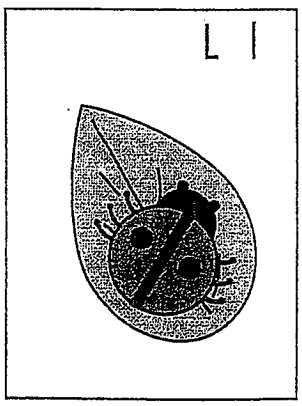
5. **Stripe:** larger black rectangle
   - Put a dot of glue on each end of the rectangle; glue the stripe to the body; make it point toward the head



6. **Spots/antennae:** smaller black rectangle and scraps
   - Fold the rectangle in half; cut off the corners and round to make two circles for the spots
   - Put a dot of glue on each spot; glue one spot on each side of the stripe
   - Use scraps to make two antennae for the ladybug
   - Put a dot of glue on each antenna; lift the head and glue the antennae under the head

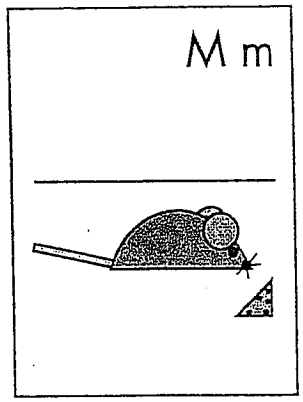


7. **Legs/markings:** black crayon
   - Use a black crayon to make six legs on the ladybug's body



8. **Name:** pencil
   - Turn your picture over and write your name in small letters in the bottom left corner

Mouse

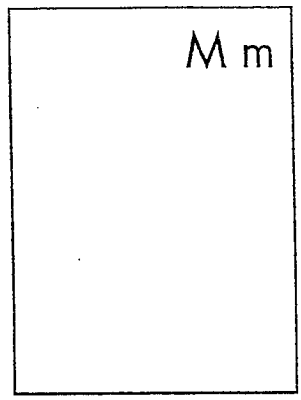


Materials:

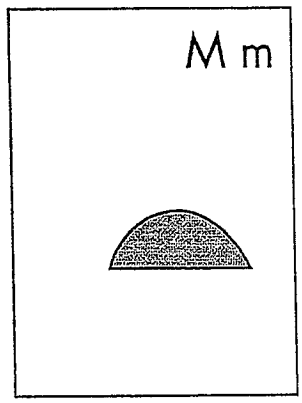
Background	1 Purple rectangle	9″	x	12″
Letter				
Body	1 Gray rectangle	$2\frac{1}{2}$″	x	5″
Ears	1 Pink rectangle	$1\frac{1}{4}$″	x	$2\frac{1}{2}$″
Tail	1 Pink rectangle	$\frac{1}{4}$″	x	3″
Cheese	1 Yellow rectangle	$1\frac{1}{2}$″	x	$1\frac{1}{2}$″
Orange and black crayons, pencil				

Vocabulary: Swiss cheese, holes

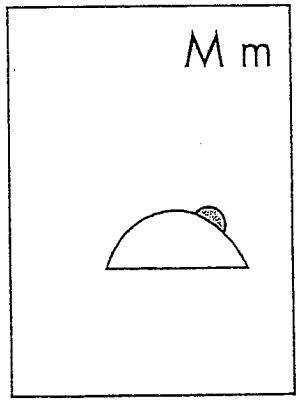
Directions:



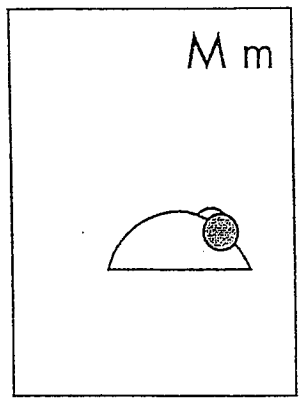
1. **Background/letter:** purple rectangle and letter
   - Place the purple rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the purple rectangle; place it in the upper right corner



2. **Body:** gray rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round
   - Put a dot of glue on the body; glue the body to the purple rectangle; place it in the middle of the purple rectangle a little closer to the right side to leave room for the tail

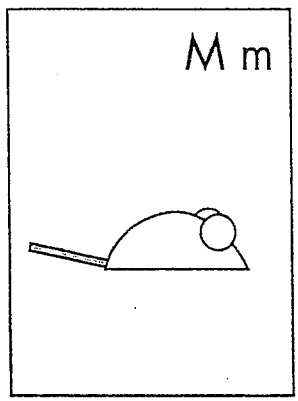


3. **Ears:** larger pink rectangle
   - Fold the rectangle; cut off the corners of the rectangle and round; open and cut apart to make two circles for the ears; save one of the circles for the next step
   - Put a dot of glue on one of the ears; lift the body and glue the ear under the body; place it between the middle and the front of the body



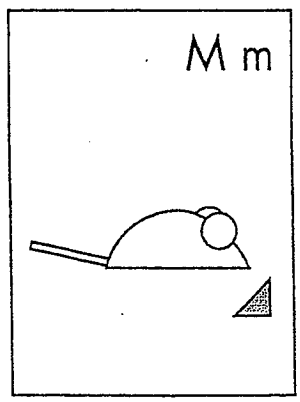
4. Ear: circle from Step 3

- Put a dot of glue on the ear; glue the ear to the body; make it overlap the other ear a little



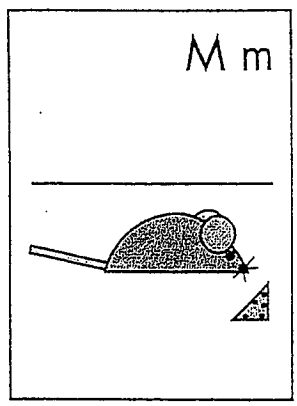
5. Tail: smaller pink rectangle

- Put a dot of glue on each end of the rectangle; lift the body; glue the tail under the back of the body; place it at the bottom of the body



6. Cheese: yellow square

- Cut the square on a diagonal line from corner to corner to make two triangles; use one of the triangles for the cheese
- Put a dot of glue on the cheese; glue the cheese to the purple rectangle; place it in front of the mouse, but lower



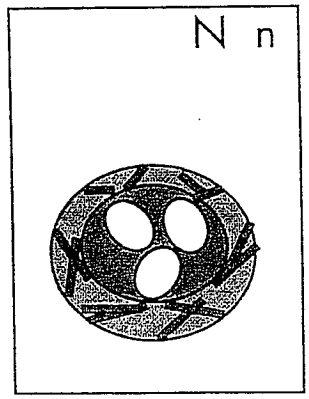
7. Base line/markings: orange and black crayons

- Use an orange crayon to make some circles on the cheese; make it look like Swiss cheese that has holes in it
- Use a black crayon to make a circle for the mouse's eye; make a circle on the point for his nose; make two whiskers on each side of his nose
- Use a black crayon to draw a base line from one side of the purple rectangle to the other; draw it a little above the mouse

8. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Nest

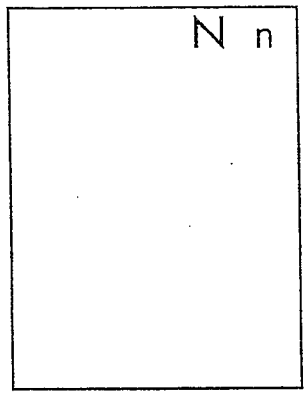


Materials:

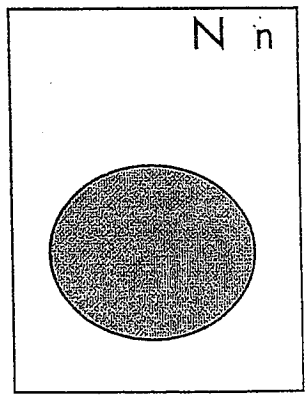
Background	1 Yellow rectangle	9″	x	12″
Letter				
Nest	1 Tan rectangle	6″	x	7″
Nest inside	1 Brown rectangle	4″	x	5″
Eggs	1 White rectangle	2″	x	5″
Twigs	1 Brown rectangle	2″	x	$2\frac{1}{2}$″
Twigs	1 Brown rectangle	1″	x	$\frac{1}{2}$″
Pencil				

Vocabulary: nest, twigs

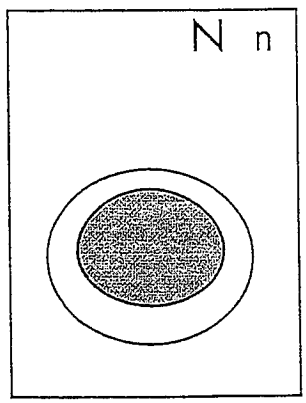
Directions:



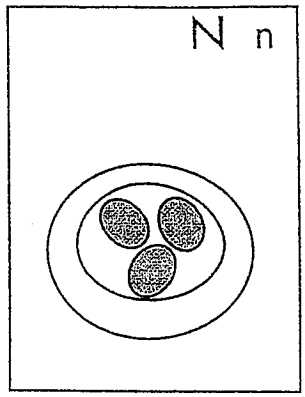
1. **Background/letter:** yellow rectangle and letter
   - Place the yellow rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the yellow rectangle; place it in the upper right corner



2. **Nest:** tan rectangle
   - Cut off the corners of the rectangle and round to make an oval for the nest
   - Put a dot of glue on the nest; glue the nest to the yellow rectangle in a horizontal position; place it near the bottom of the rectangle

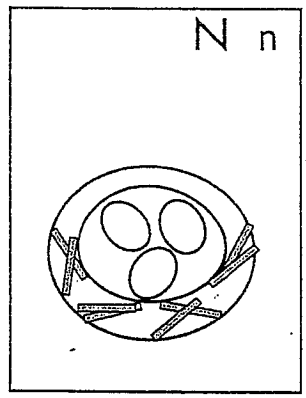


3. **Nest inside:** largest brown rectangle
   - Cut off the corners of the rectangle and round to make an oval for the nest inside
   - Put a dot of glue on the nest oval; glue the oval to the nest in a horizontal position; place it so that the tan shows all around the edges, but that more of the tan shows at the bottom



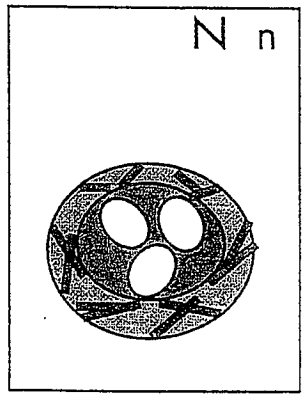
4. Eggs: white rectangle

- Fold the rectangle in half; fold it in half again; cut off the corners of the folded rectangle and round to make four ovals for eggs
- Put a dot of glue on three of the eggs; do not use the fourth egg; glue the eggs to the inside of the nest



5. Twigs: middle-sized brown rectangle

- Fold the rectangle in half; fold it again; open and cut it apart on the fold lines to make four smaller rectangles
- Fold one of the rectangles; open and cut it apart on the fold line to make two twigs; put a dot of glue on the twigs; glue them to the nest, the tan part; place them on the lower part of the nest; make them cross each other a little
- Make twigs from the other rectangles in the same way; glue them to the nest in the same way; place them on the lower part and sides of the nest



6. Twigs: smallest brown rectangle

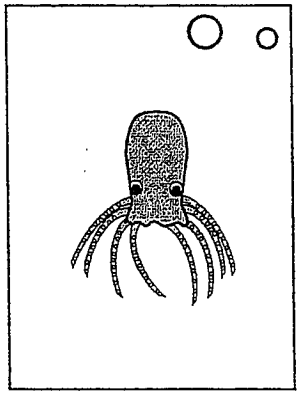
- Fold the rectangle; open and cut it apart on the fold line to make two smaller rectangles
- Make two twigs from each rectangle
- Put a dot of glue on each twig; glue them to the top part of the nest

7. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

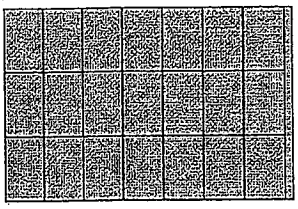
Octopus

Materials:

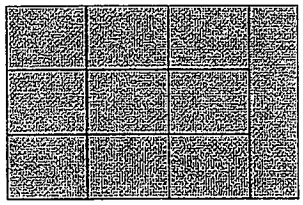


Background	1 Royal blue rectangle	9"	x	12"
Letter				
Body*	1 Orange rectangle	$2\frac{1}{2}$"	x	4"
Tentacles*	1 Orange rectangle	4"	x	5"
Eyes	1 White rectangle	$\frac{1}{2}$"	x	1"
Eyes	1 Black rectangle	$\frac{1}{2}$"	x	1"
Pencil, white paint				

*In place of plain orange construction paper, you can prepare paper ahead of time by sponge painting the orange paper with brown paint.



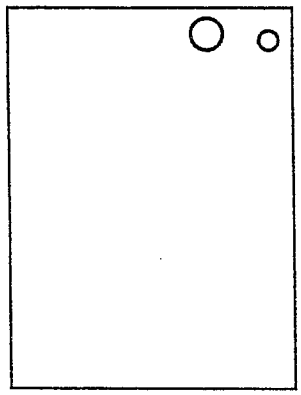
A 12" x 18" paper will make 21 rectangles for the body.



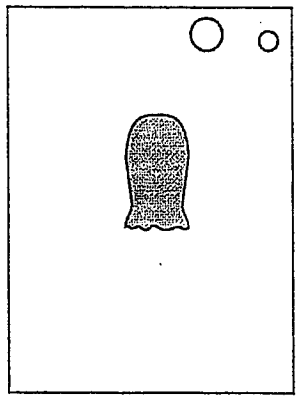
A 12" x 18" paper will make 9 rectangles for the tentacles.

Vocabulary: octopus, tentacles, royal blue, eight, suction cups

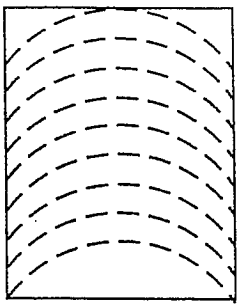
Directions:



1. **Background/letter:** royal blue rectangle and letter
   - Place the royal blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the royal blue rectangle; place it in the upper right corner

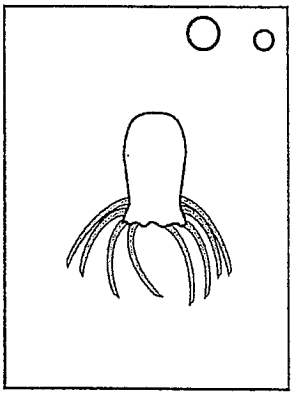


2. **Body:** smaller orange rectangle
   - Hold the rectangle in a vertical position; cut off the top corners and round; make a small "U" cut on each side of the body about one inch from the bottom
   - Make small cuts out of the bottom of the body to make a wavy line
   - Put a dot of glue on the back of the body; glue the body to the royal blue rectangle in a vertical position; place it in the middle of the royal blue rectangle



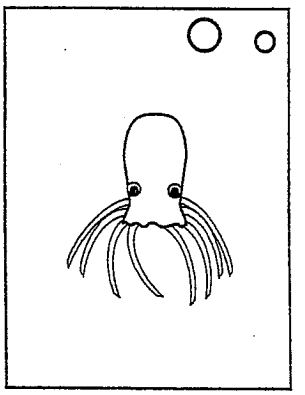
3. Tentacles: larger orange rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round
- Cut a curved strip parallel to the top curved line; make the strip about one-half inch wide for a tentacle
- Make seven more tentacles the same way
- Put a dot of glue on one end of one of the tentacles; lift the bottom of the body and glue the tentacle under the body near the bottom; glue the other tentacles the same way; glue four tentacles on each side



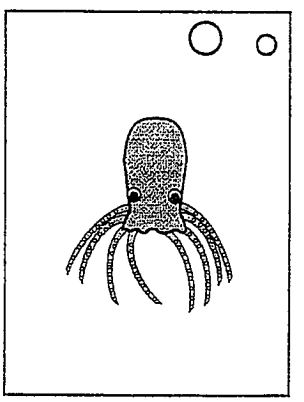
4. Eyes: black and white rectangles

- Fold the white rectangle; cut off the corners and round to make two circles for the eyes
- Put a dot of glue on each eye; glue the eyes to the body; place them near the bottom of the body
- Fold the black rectangle; cut off the corners and round to make two circles for the centers of the eyes
- Put a dot of glue on each black circle; glue the black circles to the white circles; place them so that part of the white circle shows in back of the black circle



5. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner



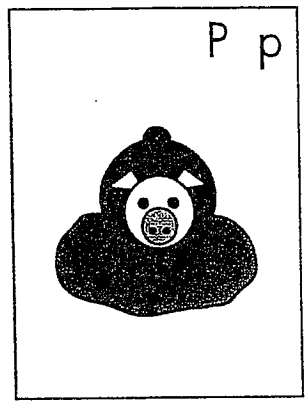
6. Suction cups: white paint

- Use your little finger to make dots of white paint along the inside edge of each tentacle

Pig

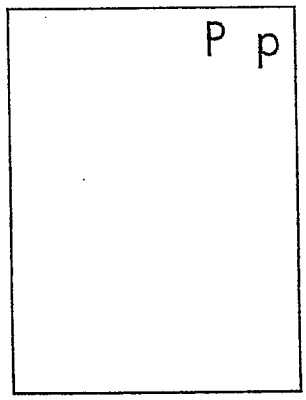
Materials:

Background	1 Light blue rectangle	9"	x	12"
Letter				
Mud	1 Brown rectangle	4"	x	7"
Body	1 Black square	$4\frac{1}{2}$"	x	$4\frac{1}{2}$"
Head	1 White square	$2\frac{1}{2}$"	x	$2\frac{1}{2}$"
Legs	1 Black rectangle	1"	x	3"
Ears	1 White square	1"	x	1"
Snout	1 Pink square	$1\frac{1}{4}$"	x	$1\frac{1}{4}$"
Tail	1 Black square	1"	x	1"
Eyes	1 Black rectangle	$\frac{1}{2}$"	x	1"
Black crayon, pencil				

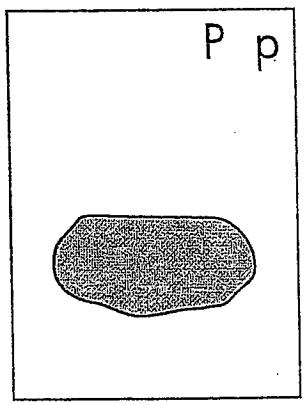


Vocabulary: pig, snout, hooves, "V", "U", coil, nostrils

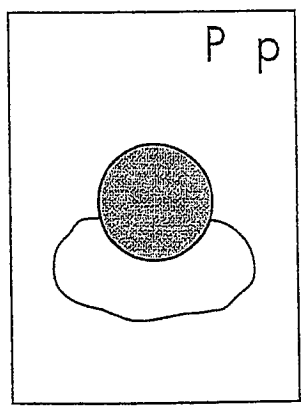
Directions:



1. **Background/letter:** light blue rectangle and letter
   - Place the light blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the light blue rectangle; place it in the upper right corner



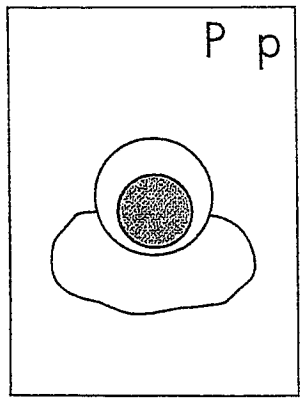
2. **Mud:** brown rectangle
   - Cut off the corners of the rectangle and round to make an oval
   - Make some wide "U" cuts in the oval to make the mud uneven to make it look like a puddle
   - Put a dot of glue on each end of the mud; glue the mud to the light blue rectangle in a horizontal position; place it in the middle of the rectangle a little closer to the bottom of the rectangle



3. **Body:** larger black square
   - Cut off the corners of the square and round to make a circle for the body
   - Put a dot of glue on the body; glue the body to the mud; place it about halfway up so the top of the body is off of the mud and there is room for the legs on the mud at the bottom

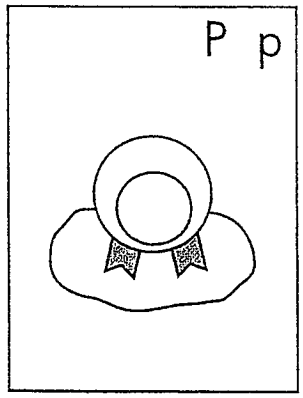
4. Head: larger white square

- Cut off the corners of the square to make a circle for the hea
- Put a dot of glue on the head; glue the head to the body; place it in the middle near the bottom edge of the body



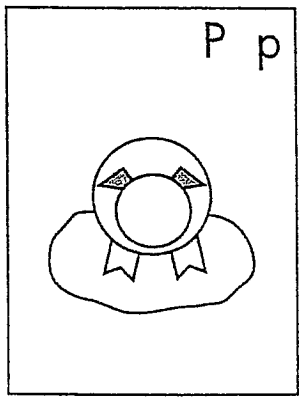
5. Legs: black rectangle

- Fold the rectangle in half; hold the folded rectangle in a vertical position; make an upside-down "V" cut in the bottom of the folded rectangle to make the hooves; open and cut apart on the fold line to make two legs
- Put a dot of glue on one of the legs; lift the pig's body; glue the leg under the body on the left side with the "V" cut at the bottom; slant it outward a little
- Glue the other leg to the right side of the body in the same way



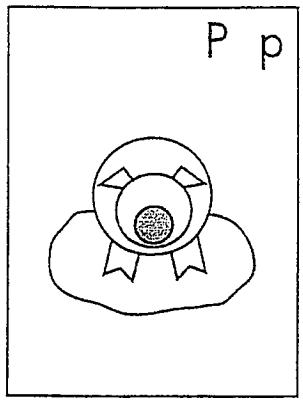
6. Ears: smaller white square

- Cut the square on a diagonal line from corner to corner to make two triangles for the ears
- Put a dot of glue on one of the ears; lift the head; glue the ear under the head; place one point under the head with the wide side of the triangle at the bottom; slant the ear upward a little
- Glue the other ear to the other side of the head in the same way

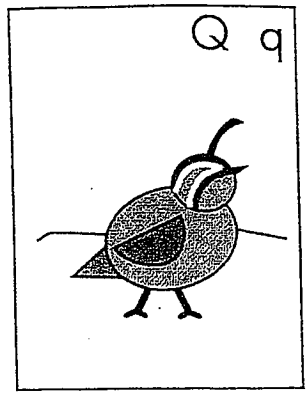


7. Snout: pink square

- Cut off the corners of the square and round to make a circle for the snout
- Put a dot of glue on the snout; glue the snout to the middle of the head; place it near the bottom edge of the head



Quail



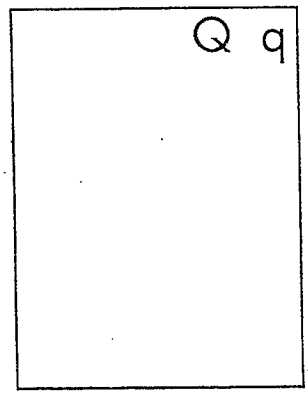
Materials:

Background	1 Gray rectangle	9″	x	12″
Letter				
Body	1 Tan rectangle	3″	x	$3\frac{3}{4}$″
Head	1 Tan rectangle	2″	x	$2\frac{1}{2}$″
Wing	1 Brown rectangle	$1\frac{1}{4}$″	x	2″
Tail	1 Brown square	$1\frac{1}{2}$″	x	$1\frac{1}{2}$″
Legs/feet	1 Brown rectangle	$\frac{1}{4}$″	x	6″
Brown, white, and black crayons, pencil				

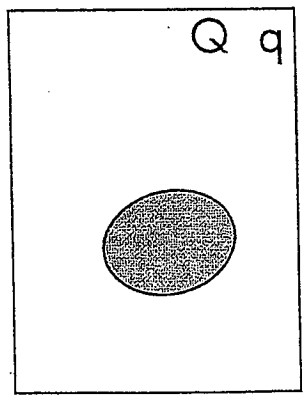
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level.

Vocabulary: quail, tan, gray, beak, plume, semicircle, inch

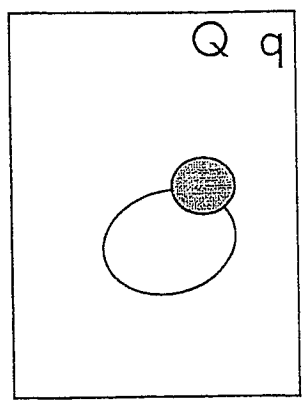
Directions:



1. **Background/letter:** gray rectangle and letter
   - Place the gray rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the gray rectangle; place it in the upper right corner



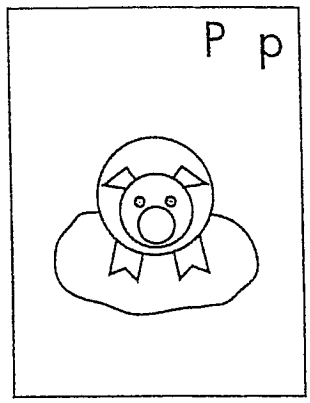
2. **Body:** larger tan rectangle
   - Cut off the corners of the rectangle and round to make an oval for the body
   - Put a dot of glue on the body; glue the body to the middle of the gray rectangle in a horizontal position; slant it upward a little



3. **Head:** smaller tan rectangle
   - Cut off the corners of the rectangle and round to make an oval for the head
   - Put a dot of glue on the head; glue the head to the top of the body in a horizontal position; place it near one end

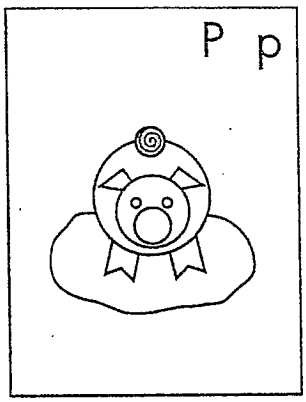
8. Eyes: smaller black rectangle

- Fold the rectangle; cut off the corners of the square and round to make a circle; open and cut apart on the fold line to make two circles for the eyes
- Put a dot of glue on each eye; glue the eyes to the head; place them on each side above the snout



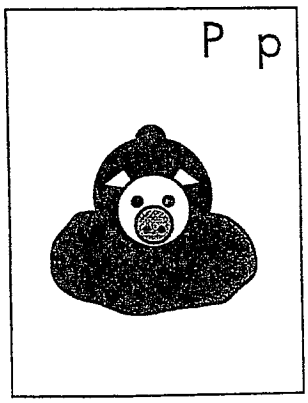
9. Tail: smaller black square

- Cut off the corners of the square and round to make a circle; beginning on the outside edge of the circle make a coil by cutting round and round in a circle to the middle
- Put a dot of glue at the top of the body and glue the tail on the body so part of it is off of the body



10. Nostrils: black crayon

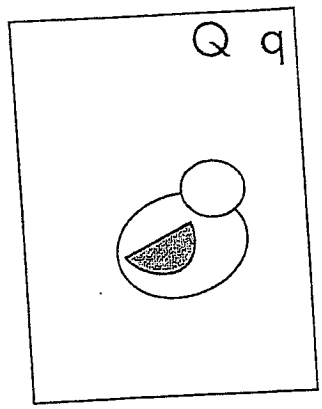
- Use a black crayon to make two circles for the pig's nostrils on the pig's snout; place them near the bottom of the snout



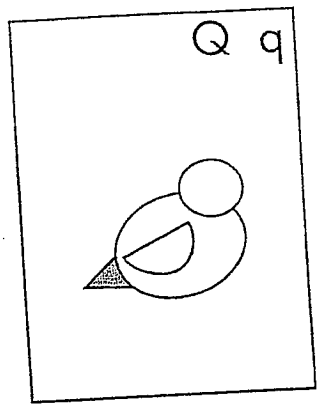
11. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

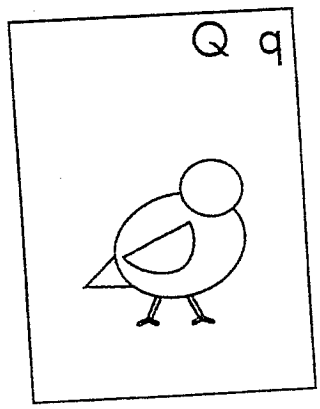
4. **Wing:** larger brown rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round to make a semicircle for the wing
   - Put a dot of glue on the wing; glue the wing to the body in a slanted position with the rounded part at the bottom; place it near the back of the body



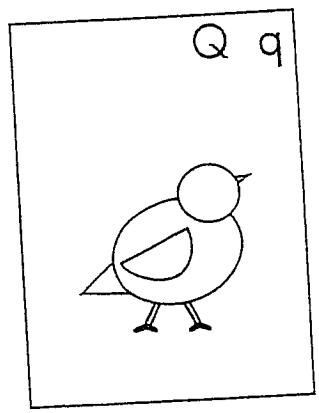
5. **Tail:** brown square
   - Fold the square in half; cut the folded square on a diagonal line from corner to corner to make three triangles
   - Put a dot of glue on the largest triangle; lift the end of the body; glue the tail under the body with the point slanting down



6. **Legs/feet:** smaller brown rectangle
   - Fold the rectangle in half; fold it in half again; open it and cut it apart to make four rectangles; use two of the rectangles for the legs
   - Put a dot of glue on each leg; lift the body and glue the legs under the bottom of the body; slant one forward and the other backward
   - Fold one of the other rectangles in half; open it and cut it apart on the fold line to make two rectangles for one of the feet; put a dot of glue on the end of one of the legs; glue the rectangles to the leg slanting one down forward and one down backward
   - Make the other foot the same way

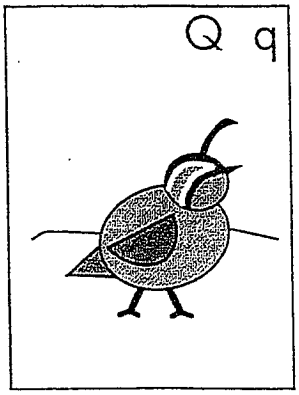


7. **Beak:** brown scrap
   - Cut a point off one of the triangle scraps
   - Put a dot of glue on beak; lift the head and glue the beak under the front of the head



8. Markings: brown, white, and black crayons

- Use a black crayon to make a circle for the eye on the head
- Use a black crayon to make a plume on top of the quail's head; make it about one inch long; curve it forward
- Use a black crayon to make a curved line at the top of the head
- Use a white crayon to make a curved line under the black line; make another white line starting at the beak and curving down to the opposite side of the head
- Use a brown crayon to make a curved line under the second white line
- Use a brown crayon to draw a base line from one side of the gray rectangle to the other; place it in the middle of the gray rectangle behind the quail



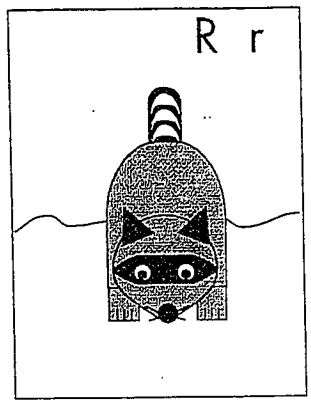
9. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Raccoon

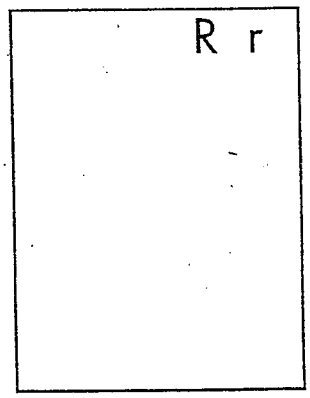
Materials:

Background	1 Turquoise rectangle	9"	x	12"
Letter				
Body	1 Gray rectangle	4"	x	5"
Head	1 Gray square	$3\frac{1}{2}$"	x	$3\frac{1}{2}$"
Legs	1 Gray rectangle	1"	x	3"
Tail	1 Gray rectangle	$1\frac{1}{2}$"	x	$2\frac{1}{2}$"
Mask	1 Black rectangle	1"	x	$3\frac{1}{2}$"
Ears	1 Black rectangle	1"	x	$2\frac{1}{2}$"
Nose	1 Black square	$\frac{3}{4}$"	x	$\frac{3}{4}$"
Eyes	1 White rectangle	$\frac{1}{2}$"	x	1"
Black crayon, pencil				

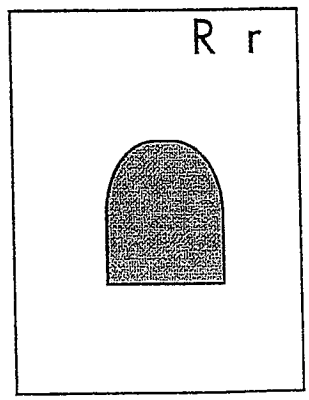


Vocabulary: raccoon, mask, striped

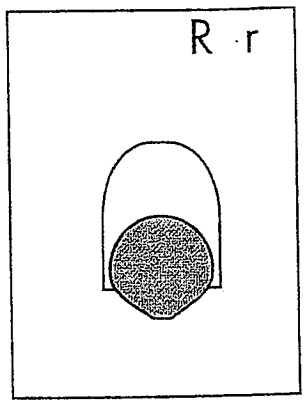
Directions:



1. **Background/letter:** turquoise rectangle and letter
   - Place the turquoise rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the turquoise rectangle; place it in the upper right corner



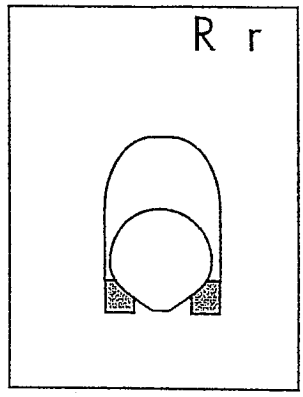
2. **Body:** largest gray rectangle
   - Hold the rectangle in a vertical position; cut off the top corners and round
   - Put a dot of glue on each end of the body; glue the body to the turquoise rectangle in a vertical position with the rounded end at the top; place it in the middle of the turquoise rectangle



3. **Head:** gray square
   - Cut off the top corners of the square and round
   - Turn the square upside-down so the rounded part is at the bottom; cut off the top corners; make the cuts big; round off the top point for the nose
   - Put a dot of glue on the head; glue the head to the body; place it in the middle with the nose pointing down; most of the nose should be off of the body on the turquoise rectangle

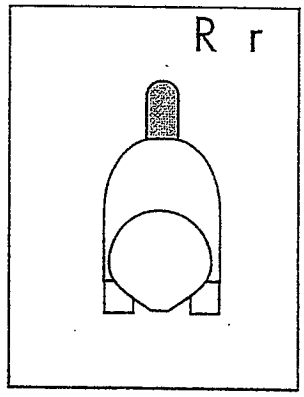
4. Legs: smallest gray rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two rectangles for the legs
- Put a dot of glue on one of the legs; lift the body and glue the leg under the body on the left side; most of the leg should show
- Glue the other leg to the right side of the body in the same way



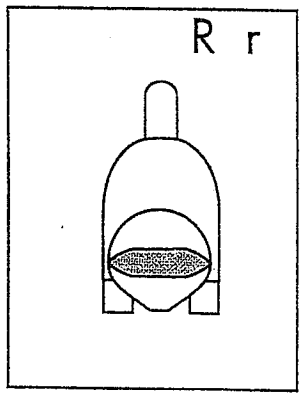
5. Tail: middle-sized gray rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round to make the tail
- Put a dot of glue on the tail; lift the end of the body; glue the tail under the body in a vertical position with the rounded part at the top



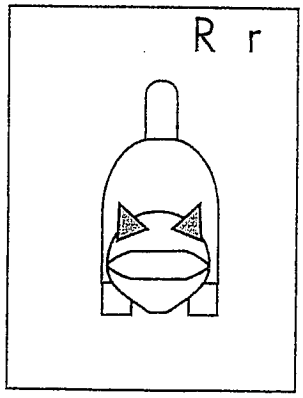
6. Mask: larger black rectangle

- Cut off the corners of the rectangle so it is pointed on each end
- Put a dot of glue on the mask; glue the mask to the middle of the head in a horizontal position

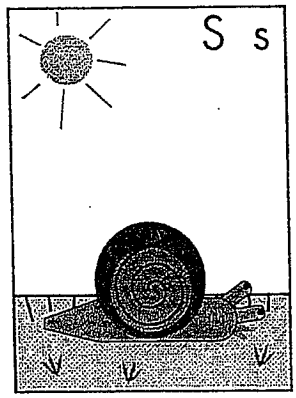


7. Ears: smaller black rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two smaller rectangles; fold one of the rectangles lengthwise; cut the folded rectangle on a diagonal line from corner to corner to make three triangles; use the largest triangle for one of the ears
- Put a dot of glue on the ear; glue the ear to the top left side of the head with the point at the top; slant it outward a little
- Use the other rectangle to make the other ear the same way; glue that ear to the top right side of the head



Snail

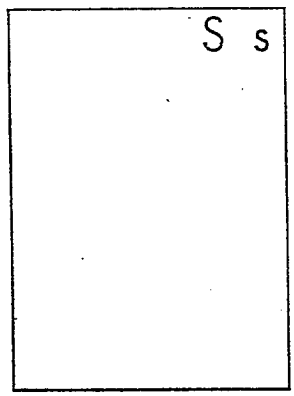


Materials:

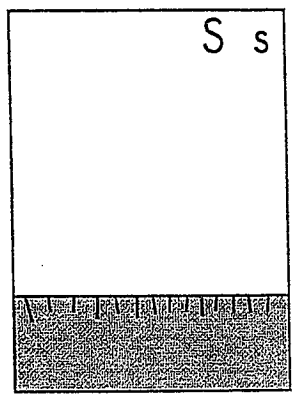
Background	1 White rectangle	9″	x	12″
Letter				
Grass	1 Chartreuse rectangle	3″	x	9″
Body	1 Tan rectangle	1 1/2″	x	7″
Shell (outer)	1 Dark brown square	4″	x	4″
Shell (inner)	1 Tan square	3″	x	3″
Antennae	1 Tan rectangle	1/2″	x	2 1/2″
Yellow, green, brown, and black crayons, pencil				

Vocabulary: snail, fringe, antennae, upward, forward, coiled, tufts

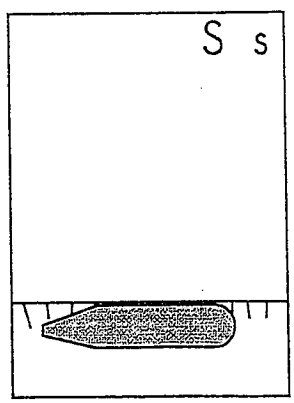
Directions:



1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner



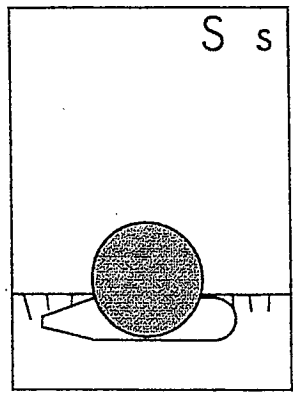
2. **Grass:** chartreuse rectangle
   - Hold the rectangle in a vertical position; make small cuts, on one side of the rectangle, fringe one side of the rectangle
   - Put a dot of glue on each end and in the middle of the grass; glue the grass to the white rectangle in a horizontal position with the fringe at the top; match the bottom edge of the grass to the bottom edge of the white rectangle



3. **Body:** larger tan rectangle
   - Hold the rectangle in a vertical position; cut off the top corners to make a point for the tail of the snail
   - Turn the rectangle upside-down; cut off the top corners and round to make the head of the snail
   - Put a dot of glue on the body; glue the body to the grass in a horizontal position

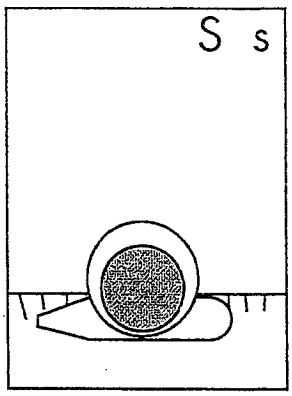
4. Shell (outer): dark brown square

- Cut off the corners of the square to make a circle for the shell
- Put a dot of glue on the shell; glue the shell to the body; place it in the middle near the bottom edge of the body



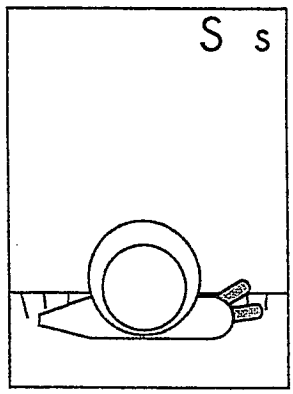
5. Shell (inner): tan square

- Cut off the corners of the square and round to make a circle for the shell
- Put a dot of glue on the inner shell; glue the inner shell to the outer shell; place it in the middle near the bottom edge of the outer shell



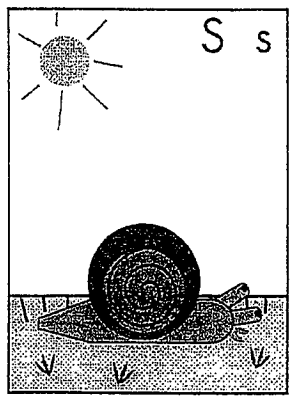
6. Antennae: smaller tan rectangle

- Fold the rectangle; hold the folded rectangle in a vertical position; cut off the top corners and round; open and cut apart on the fold line
- Put a dot of glue on one of the antenna; lift the head of the snail; glue the antenna under the body with the round end showing; slant it upward a little
- Put a dot of glue on the other antennae; glue the antenna to the head; make it point forward



7. Markings: yellow, green, and brown crayons

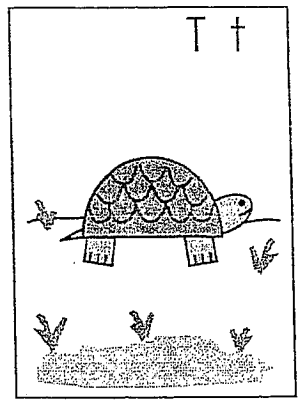
- Use a black crayon to make a coiled line on the inner shell
- Use a black crayon to make a circle for the eye on the end of each antenna
- Use a green crayon to make some tufts of grass on the chartreuse rectangle
- Use a yellow crayon to make a sun in the sky



8. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Turtle

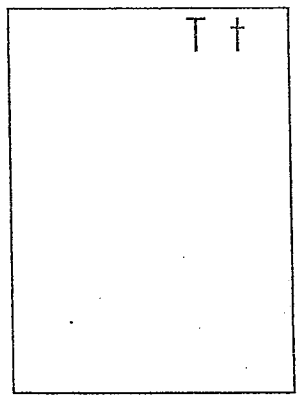


Materials:

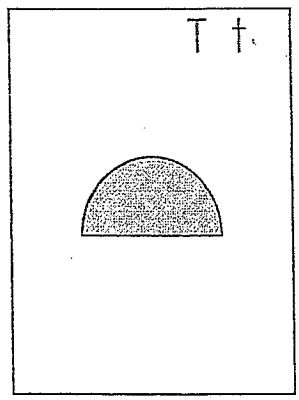
Background	1 Light green rectangle	9"	x	12"
Letter				
Body	1 Dark green rectangle	$3\frac{1}{2}$"	x	5"
Head	1 Chartreuse square	$1\frac{1}{2}$"	x	$1\frac{1}{2}$"
Legs	1 Chartreuse rectangle	$1\frac{1}{2}$"	x	$3\frac{1}{2}$"
Green, blue, and black crayons, pencil				

Vocabulary: chartreuse, shell, upward, base line, row, "U"

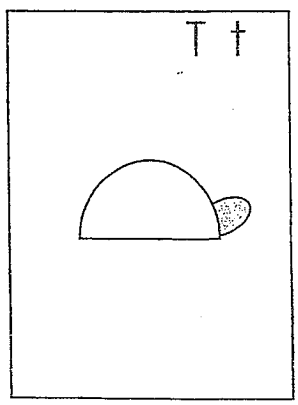
Directions:



1. **Background/letter:** light green rectangle and letter
   - Place the light green rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the light green rectangle; place it in the upper right corner



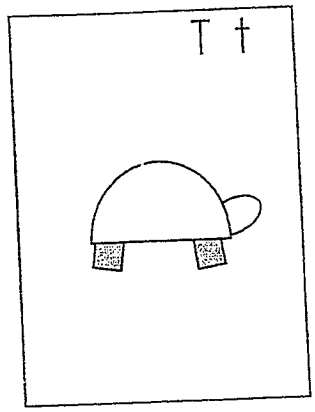
2. **Body:** dark green rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round
   - Put a dot of glue on each end of the body; glue the body to the light green rectangle in a horizontal position with the rounded side at the top; place it near the middle, leaving room for the head at one end



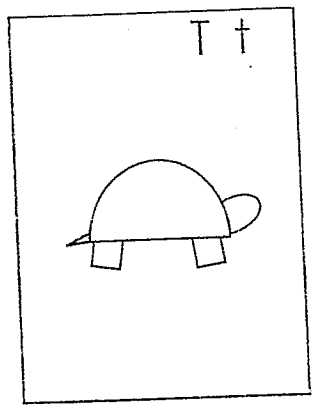
3. **Head:** smaller chartreuse rectangle
   - Hold the rectangle in a vertical position; cut off the corners and round to make the head
   - Put a dot of glue on the head; lift the body; glue the head under the body with the rounded end showing; place the head at the bottom edge of the body; slant it upward a little

Copyright © 1999 TLC Espinosa & McCormick

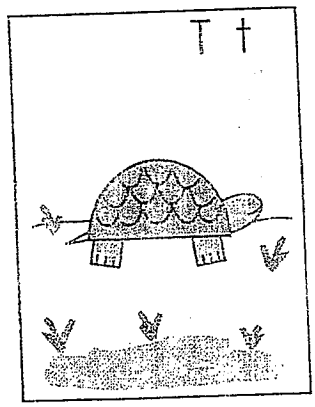
4. **Legs:** larger chartreuse rectangle
   - Fold the rectangle in half; open and cut apart on the fold line to make two smaller rectangles for the legs
   - Put a dot of glue on one of the legs; lift the body; glue the leg under the back of the body; slant it backward a little
   - Glue the other leg under the front of the body in the same way; slant it forward a little



5. **Tail:** chartreuse scrap
   - Cut one of the corner scraps into a triangle
   - Put a dot of glue on the tail; lift the back of the body; glue the tail under the body with the point showing; place it at the bottom edge of the body



6. **Markings:** green, blue, and black crayons
   - Use a black crayon to make a circle for the turtle's eye on the head; use a black crayon to make a mouth under the eye on the turtle's head
   - Use a black crayon to make claws on the turtle's feet; make three curved lines on the bottom of each foot
   - Use a black crayon to make markings on the turtle's shell; start at the top and make a wide "U" at the top of the shell; place it in the middle; make a wide "U" on each side of the first "U"; make two more rows of "U"'s below the first row
   - Use the side of a blue crayon to make a pond at the bottom of the light green rectangle
   - Use a green crayon to make a base line from one edge of the light green rectangle to the other edge; draw it behind the turtle
   - Use a green crayon to make some tufts of grass on and under the base line



7. **Name:** pencil
   - Turn your picture over and write your name in small letters in the bottom left corner

Copyright © 1999 TLC Espinosa & McCormick

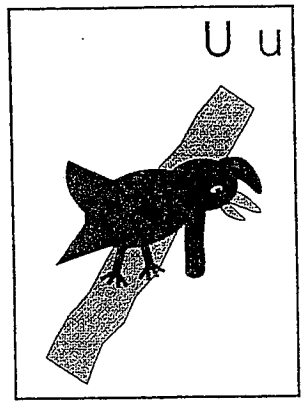
Umbrella Bird

Materials:

Background	1 ~~Chartreuse~~ green rectangle	9"	x	12"
Letter				
Tree trunk	1 Tan rectangle	2"	x	10"
Body	1 Black rectangle	$2\frac{1}{2}$"	x	4"
Head	1 Black rectangle	$1\frac{3}{4}$"	x	$2\frac{1}{2}$"
Wing	1 Black rectangle	$1\frac{1}{2}$"	x	4"
Tail/crest	1 Black rectangle	1"	x	4"
Beak (top)	1 Gray rectangle	$\frac{1}{2}$"	x	$1\frac{1}{2}$"
Beak (bottom)	1 Gray rectangle	$\frac{1}{2}$"	x	1"
Legs	1 Dark brown rectangle	$\frac{1}{4}$"	x	$2\frac{1}{2}$"
Feet	1 Dark brown rectangle	$\frac{3}{4}$"	x	$1\frac{1}{2}$"
Wattle	1 Black rectangle	$\frac{3}{4}$"	x	$2\frac{1}{2}$"
Black crayon, pencil				

Combine

Combine

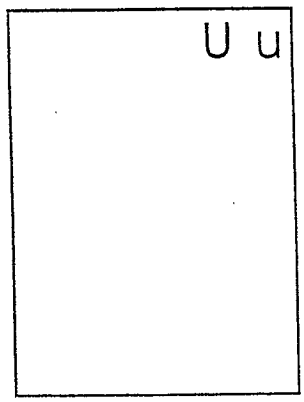


Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level. Most of the pieces in this lesson are black. It is easier for the children to select the correct piece if they can see them in a row in the order to be used. Separate the wattle from the rest of the pieces. In some situations you might want to hand out some of the pieces as you need them.

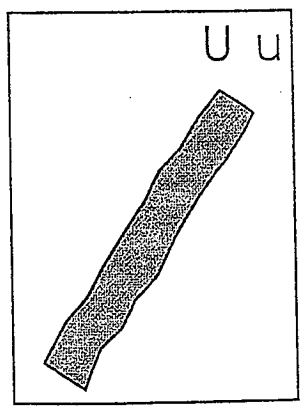
Vocabulary: umbrella, tree trunk, beak, squawking, crest, semicircle, "U", wattle, wavy

Directions:

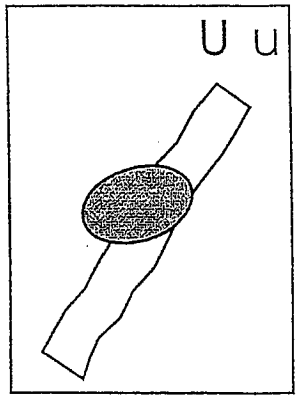
1. **Background/letter:** chartreuse rectangle and letter
   - Place the chartreuse rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the chartreuse rectangle; place it in the upper right corner



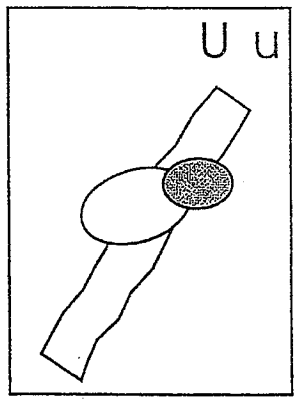
2. **Tree trunk:** tan rectangle
   - Hold the rectangle in a vertical position; tear off a narrow strip on each side of the rectangle to make the tree trunk
   - Put a dot of glue on each end and in the middle of the tree trunk; glue the trunk to the chartreuse rectangle in a diagonal position; slant it from the bottom left corner of the chartreuse rectangle to the top right corner of the rectangle



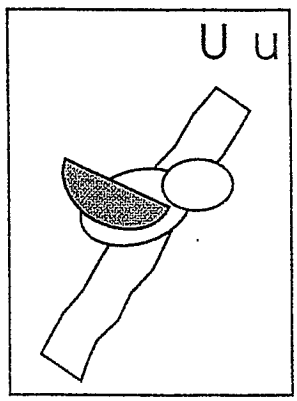
3. **Body:** largest black rectangle
   - Cut off the corners of the rectangle and round to make an oval for the body
   - Put a dot of glue on the body; glue the body to the middle of the trunk in a horizontal position; make it slant down a little on the left side



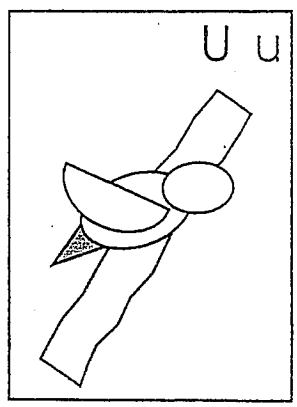
4. **Head:** shortest black rectangle
   - Cut off the corners of the rectangle and round to make an oval for the head
   - Put a dot of glue on the head; glue the head in a horizontal position to the right end of the body; make it slant up a little



5. **Wing:** next-largest black rectangle
   - Hold the rectangle in a horizontal position; cut off the top corners and round to make the wing
   - Put a dot of glue on the wing; glue the wing to the middle of the body in a horizontal position; make it slant up a little at the back

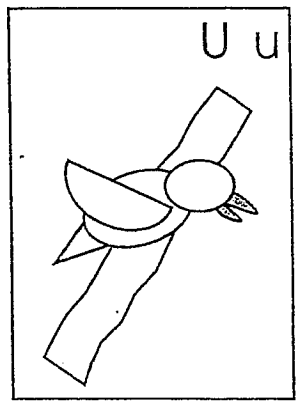


6. **Tail:** longer black rectangle
   - Fold the rectangle in half; open and cut apart on the fold line to make two smaller rectangles; save one of the rectangles for the crest
   - Fold the other rectangle lengthwise; cut the folded rectangle on a diagonal line, from corner to corner, to make three triangles; use the largest triangle for the tail
   - Put a dot of glue on the tail; lift the end of the body; glue the tail under the body; make it slant down



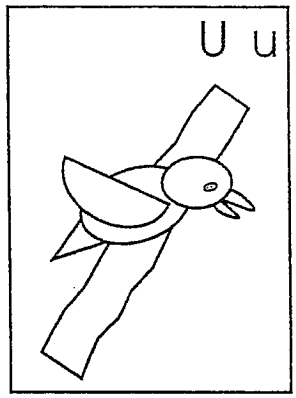
7. Beak: two gray rectangles

- Hold the larger gray rectangle in a horizontal position; cut off the top corners and round to make the top part of the beak
- Put a dot of glue on the beak; lift the head and glue the beak under the front of the head in a horizontal position with the curved part on the top; make the beak slant down a little
- Make the bottom part of the beak the same way
- Glue the bottom part of the beak under the head with the curved part at the bottom; slant it down a little so the beak looks open, as if the bird is squawking



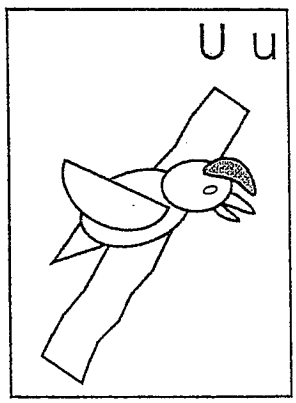
8. Eye: tan scrap

- Cut an oval out of a tan scrap to make the eye
- Put a dot of glue on the eye; glue the eye to the head; place it near the front of the head in a horizontal position



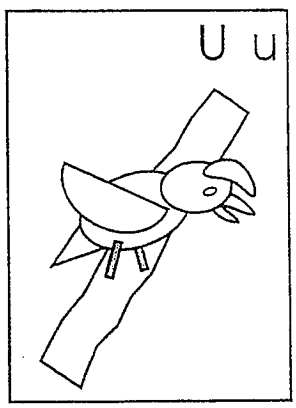
9. Crest: rectangle saved from Step 6

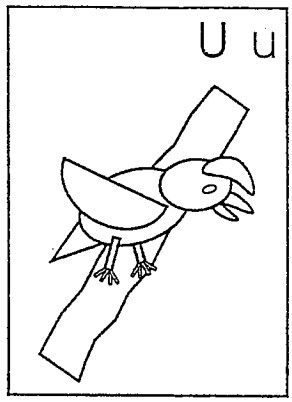
- Hold the rectangle in a horizontal position; cut off the top corners and round to make a semicircle; cut a wide "U" out of the bottom of the semicircle to make the crest look like an umbrella
- Put a dot of glue on the crest; glue the crest to the top of the head; make it slant downward a little



10. Legs: larger dark brown rectangle

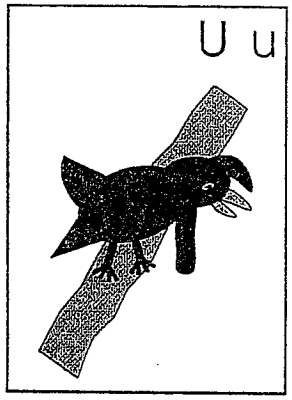
- Fold the rectangle in half; open and cut apart on the fold line to make two rectangles for the legs
- Put a dot of glue on one of the legs; lift the body and glue the leg under the middle of the body in a vertical position so that it is on the tree trunk
- Glue the other leg to the body in the same way; make it slant forward a little





11. Feet: smaller dark brown rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two rectangles for the feet; cut each rectangle into four strips for the feet
- Put a dot of glue on the end of each leg; glue four strips to each leg; make them spread out a little like claws



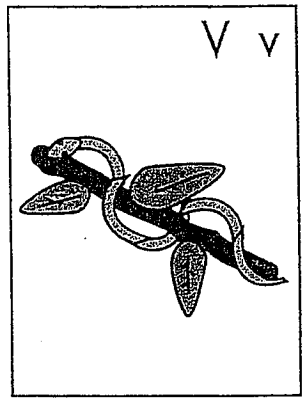
12. Wattle/eye: long, narrow black rectangle and black crayon

- Cut off the corners of the rectangle and round
- Make little cuts on the long sides of the rectangle to make it wavy
- Put a dot of glue on one end of the wattle; lift the body and glue the wattle under the body in a vertical position where the body and head meet
- Use a black crayon to make a black circle in the eye

13. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Viper



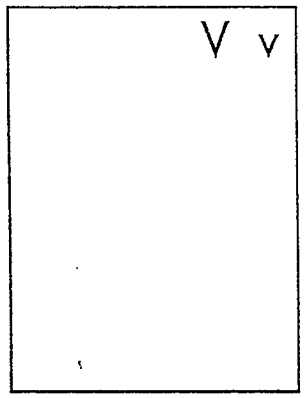
Materials:

Background	1 White rectangle	9"	x	12"
Letter				
Tree branch	1 Brown rectangle	1"	x	10"
Body/Head	1 ~~Chartreuse~~ lime green rectangle	2½"	x	5"
Big leaf	1 Green rectangle	2"	x	4"
Small leaves	1 Green rectangle	1½"	x	5½"
Green and black crayons, pencil				

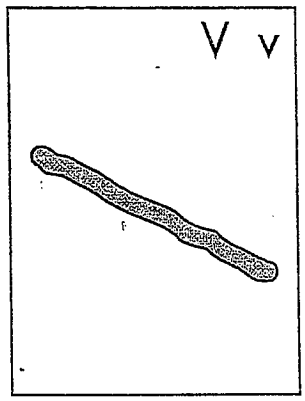
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level.

Vocabulary: viper, branch, chartreuse, one-half inch, parallel, uneven, diamond, leaf, veins, forked tongue

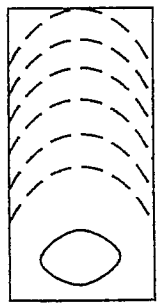
Directions:



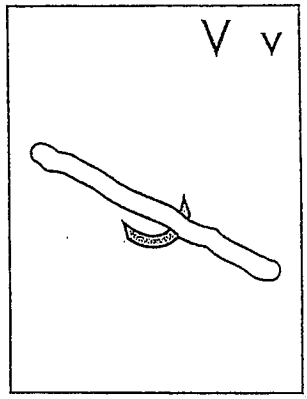
1. **Background/letter:** white rectangle and letter
   - Place the white rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the white rectangle; place it in the upper right corner



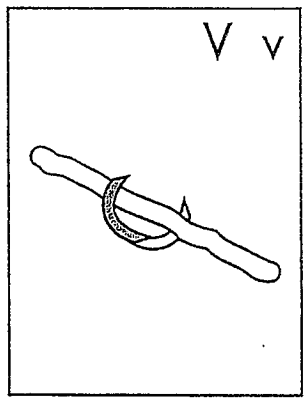
2. **Branch:** brown rectangle
   - Cut off the corners of the rectangle and round
   - Hold the rectangle in a vertical position; make wide "U" cuts on both sides of the rectangle to make the branch look uneven
   - Put a dot of glue on each end of the branch; glue the branch to the middle of the white rectangle in a diagonal position; slant it from the bottom right corner up to the top left corner



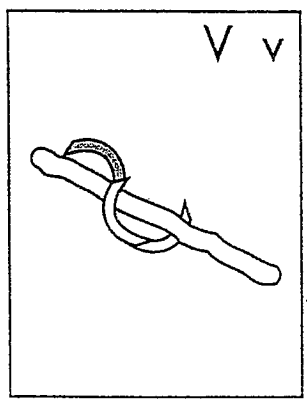
3. **Body/head:** chartreuse rectangle
   - Hold the rectangle in a vertical position; cut off the top corners of the rectangle and round
   - Cut five strips about one-half inch wide from the rectangle; cut on a curved line parallel to the curved top of the rectangle; save the bottom piece for the head



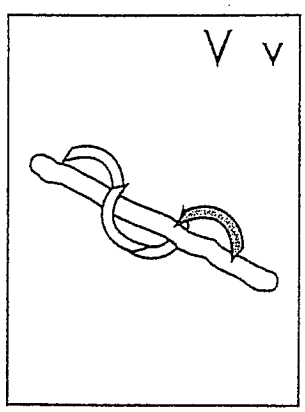
4. **Body:** one of the curved strips
   - Put a dot of glue on one of the strips; lift the branch and slip the strip under the middle of the branch with the curve at the bottom



5. **Body:** one of the curved strips
   - Put a dot of glue on the strip and on the top end of the first strip; glue the second strip to the first strip; make it overlap the first strip a little and curve around to overlap the branch



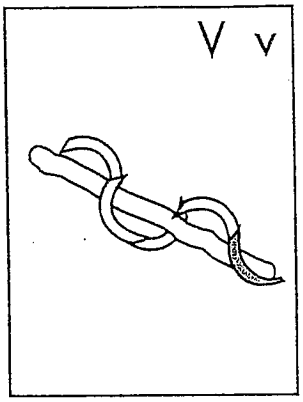
6. **Body:** one of the curved strips
   - Put a dot of glue on the strip and on the end of the second strip; glue the strip to the second strip; make the ends overlap a little; curve this strip back to the branch

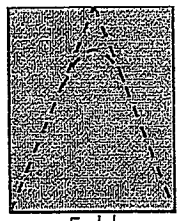


7. **Body:** one of the curved strips
   - Put a dot of glue on the strip and on the end of the first strip; glue the strip to the first strip; make it overlap the end of the first strip a little and curve back toward the branch

8. Body: the last curved strip

- Put a dot of glue on the strip and on the end of the last strip; glue the strip to the last strip; make it overlap the end of the last strip a little and curve back toward the branch

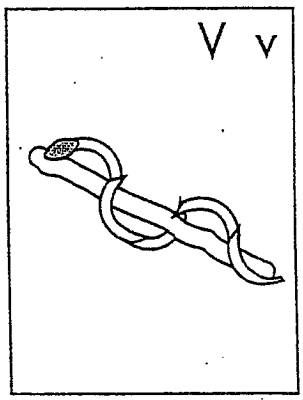




Fold

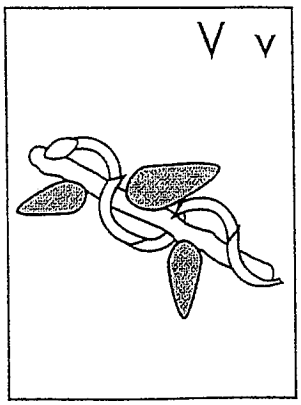
9. Head: piece saved from Step 3

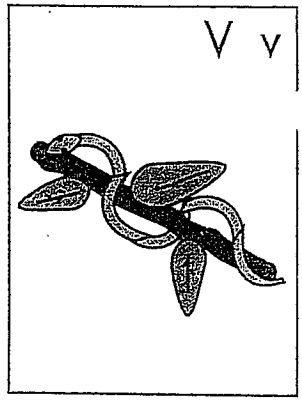
- Fold the piece so the corners match; make a rectangle out of the piece by cutting a straight line across the uneven edge
- Hold the folded rectangle by the fold in a vertical position; cut off the top corners; make big cuts so the end is pointed; round the end a little; open and you have a rounded diamond shape for the head
- Put a dot of glue on the head; glue the head to the top body strip; make it curve back toward the branch



10. Leaves: two green rectangles

- Hold the larger green rectangle in a vertical position; cut off the top corners and round; turn the rectangle upside down and cut off the top corners to make a point
- Put a dot of glue on the leaf; glue the leaf to the branch with the rounded part on the branch; point the end of the leaf up a little
- Fold the smaller green rectangle; cut the folded rectangle the same way as the first leaf; open and cut apart on the fold line to make two leaves
- Put a dot of glue on each leaf; glue one leaf near one end of the branch and the other near the other end of the branch





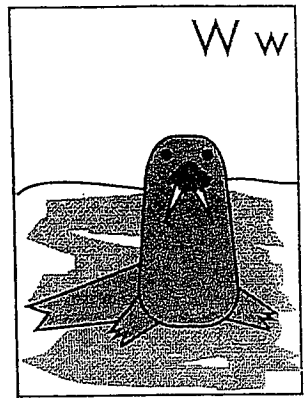
11. Markings: green and black crayons

- Use a black crayon to make eyes and a forked tongue on the head of the snake• Use a green crayon to draw a line down the center of each leaf; make short lines off of the center line to make the veins of the leaf

12. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Walrus

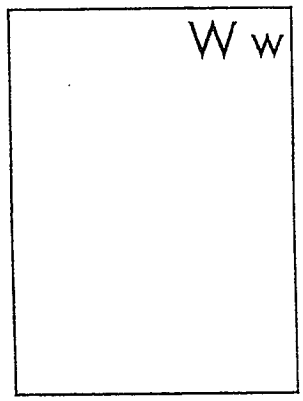


Materials:

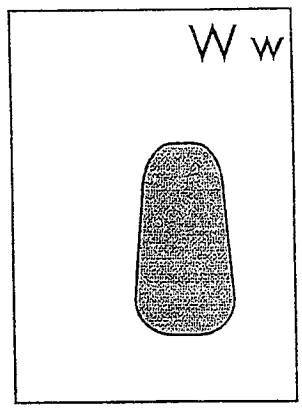
Background	1 Light blue rectangle	9″	x	12″
Letter				
Body	1 Tan rectangle	3″	x	$6\frac{1}{2}$″
Tail	1 Tan rectangle	2″	x	4″
Flippers	1 Tan rectangle	$1\frac{1}{2}$″	x	4″
Nose	1 Dark brown rectangle	1″	x	1″
Tusks	1 White rectangle	$\frac{1}{2}$″	x	2″
Blue, white, and black crayons, pencil				

Vocabulary: walrus, flippers, tusks, whiskers, narrower, halfway, "V", taper, foam

Directions:



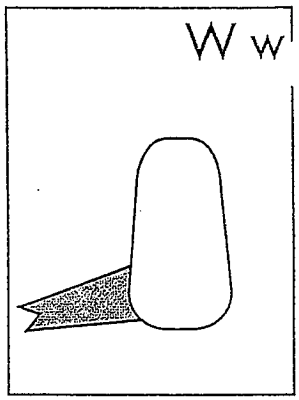
1. **Background/letter:** light blue rectangle and letter
   - Place the light blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the light blue rectangle; place it in the upper right corner



2. **Body:** largest brown rectangle
   - Cut off the corners and round to make a long oval; make one end a little bit narrower than the other end; cut off a little more on one end
   - Put a dot of glue on each end of the body; glue the body to the light blue rectangle in a vertical position; place it a little to the right of the middle of the light blue rectangle to leave room for the tail

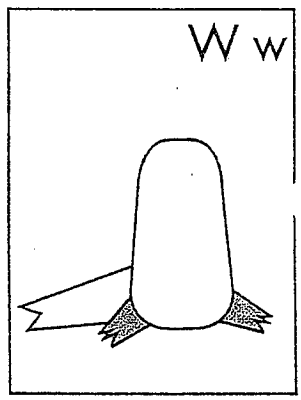
3. Tail: middle-sized brown rectangle

- Hold the rectangle in a vertical position; begin about halfway down the side of the rectangle; make a slanted cut to the top of the rectangle to cut off the top corner; cut off the other top corner the same way
- Turn the rectangle upside-down with the tapered end at the bottom; make a "V" cut in the bottom end of the rectangle
- Put a dot of glue on the tail; lift the body and glue the tail in a horizontal position under the bottom left side of the body with the "V" cut end showing



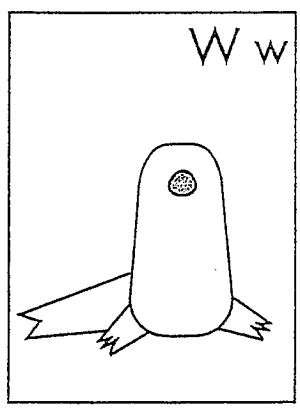
4. Flippers: smallest brown rectangle

- Fold the rectangle in half; hold the folded rectangle in a vertical position; cut off a little bit of the bottom corners; make two upside-down "V" cuts in the bottom end; open and cut apart on the fold line
- Put a dot of glue on each end of one of the flippers; lift the body and glue the flipper in a horizontal position under the bottom right side of the body with the cut end showing; slant the flipper down a little
- Glue the other flipper under the left side of the body in the same way; it will overlap the tail a little



5. Nose: dark brown square

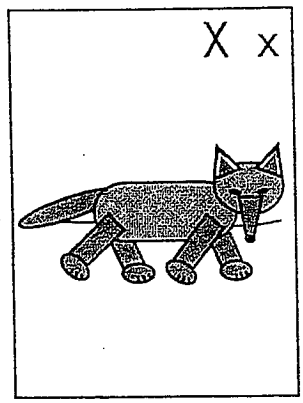
- Cut off the corners of the square and round to make a circle for the nose; cut off a little more at the top so it will be a little narrower than the bottom
- Put a dot of glue on nose; glue the nose to the body; place it near the top of the body but leave room for the eyes



Fox

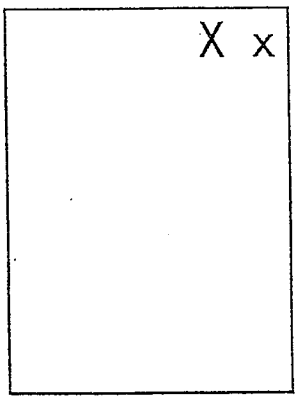
Materials:

Background	1 Turquoise rectangle	9″	x	12″
Letter				
Body	1 Light orange rectangle	2″	x	5″
Head	1 Light orange rectangle	1 3/4″	x	2 1/2″
Ears	1 Orange rectangle	1″	x	2″
Nose	1 Orange rectangle	1″	x	1 1/2″
Legs	1 Orange rectangle	3/4″	x	9″
Feet	1 Orange rectangle	3/4″	x	5″
Tail	1 Orange rectangle	1″	x	3 1/2″
White and black crayons, pencil				

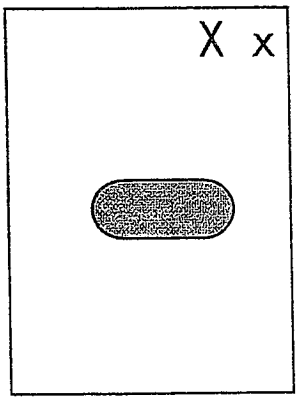


Vocabulary: fox, turquoise, two, three, third, fourth, "V"

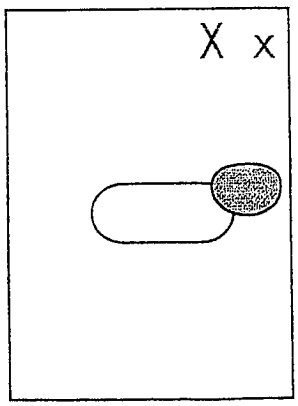
Directions:



1. **Background/letter:** turquoise rectangle and letter
   - Place the turquoise rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the turquoise rectangle; place it in the upper right corner



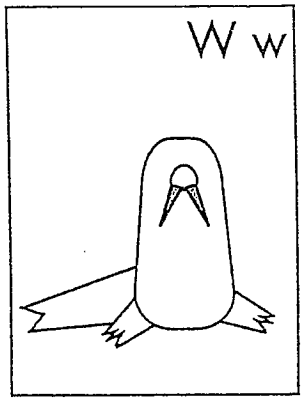
2. **Body:** larger light orange rectangle
   - Cut off the corners and round to make a long oval for the body
   - Put a dot of glue on each end of the body; glue the body to the turquoise rectangle in a horizontal position; place it in the middle of the turquoise rectangle



3. **Head:** smaller light orange rectangle
   - Cut off the corners and round to make an oval for the head
   - Put a dot of glue on the head; glue the head to the right end of the body; make it overlap the body a little

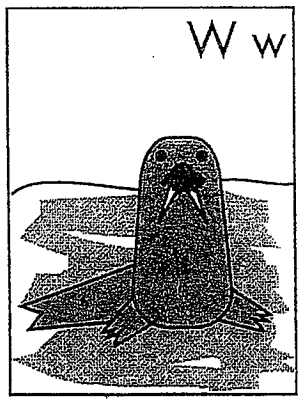
6. Tusks: white rectangle

- Cut the rectangle on a diagonal line, from corner to corner, to make two triangles for the tusks
- Put a dot of glue on the straight end of one of the tusks; lift the nose and glue the tusk under the left side of the nose at the bottom; slant it outward a little
- Glue the other tusk under the right side of the nose in the same way



7. Markings: blue, white, and black crayons

- Use a black crayon to make two circles for eyes above the nose
- Use a black crayon to make whiskers on the sides and bottom of the nose
- Use a blue crayon to make a wavy, horizontal line from one side of the light blue rectangle to the other side; place it near the middle so it is behind the head of the walrus
- Use the side of the blue crayon to make the ocean water
- Use the side of a white crayon to make the foam on the water

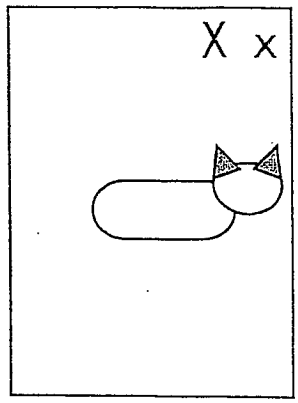


8. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

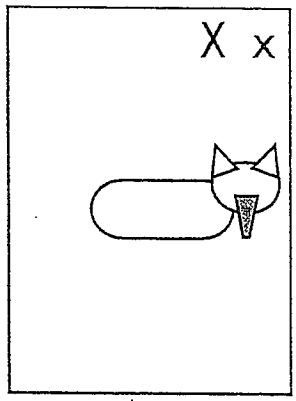
4. Ears: next-to-smallest orange rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two squares for the ears
- Fold one of the squares in half; cut the folded square on a diagonal line from corner to corner to make three triangles; use the largest triangle for one ear
- Put a dot of glue on the ear; glue the ear to the head; place it near the top of the left side of the head with a point sticking up
- Make the other ear the same way; glue it to the right side of the head



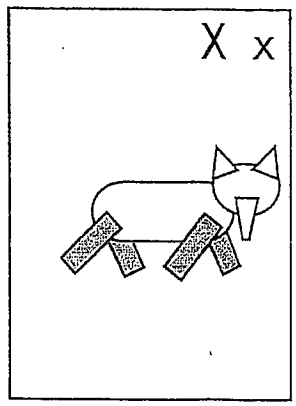
5. Nose: smallest orange rectangle

- Fold the rectangle lengthwise, cut the folded rectangle on a diagonal line from corner to corner to make three triangles; use the largest triangle for the nose; round off the end of the nose
- Put a dot of glue on the wide end of the nose; glue the nose to the body; place it near the top of the body but leave room for the eyes



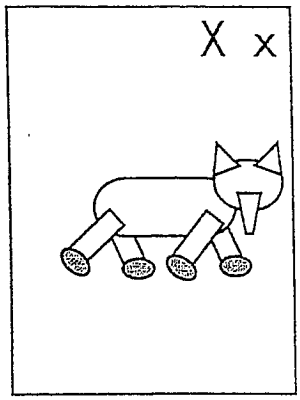
6. Legs: longest orange rectangle

- Fold the rectangle in half; fold it in half again; open and cut apart on the fold lines to make four smaller rectangles for the legs
- Put a dot of glue on one of the legs; lift the front of the body; glue the leg under the body in a vertical position; slant it forward a little
- Put a dot of glue on another one of the legs; glue the leg to the front of the body in a vertical position; place it near the other leg and slant it back a little
- Put a dot of glue on the third leg; lift the back of the body; glue the leg under the body in a vertical position; place it near the end of the body and slant it forward a little
- Put a dot of glue on the fourth leg; glue the leg to the end of the body; place it near the other leg; slant it backward a little



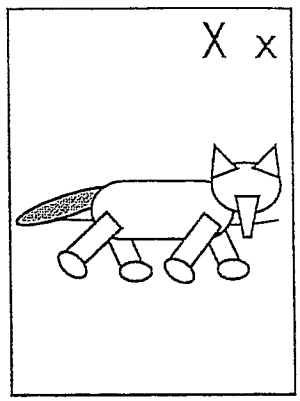
7. Feet: next-to-longest orange rectangle

- Fold the rectangle in half; fold it again; cut off the corners of the folded rectangle and round to make four ovals for the feet
- Put a dot of glue on the end of each leg; glue the feet to the legs in a horizontal position; slant them a little to make it look as if the fox is walking



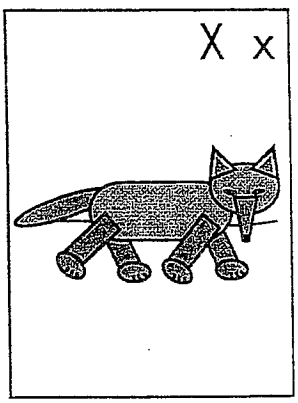
8. Tail: shortest orange rectangle

- Cut off the ends of the rectangle and round to make a long, narrow oval
- Put a dot of glue on the tail; lift the body and glue the tail under the body; make it slant down a little



9. Markings: white and black crayons

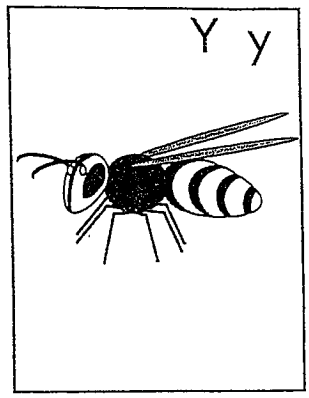
- Use a white crayon to outline the sides of each ear
- Use a black crayon to make a small upside-down "V" on the point of each ear
- Use a black crayon to make two narrow ovals for the eyes
- Use a black crayon to make a circle on the end of the fox's nose
- Use a black crayon to make the claws on the feet; make three short lines on the front of each foot



10. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Yellow Jacket

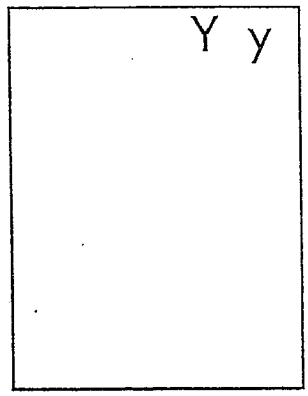


Materials:

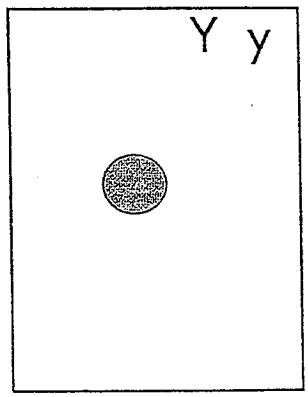
Background	1 Light blue rectangle	9″	x	12″
Letter				
Thorax	1 Black square	2″	x	2″
Head	1 Yellow rectangle	$1\frac{1}{2}$″	x	2″
Abdomen	1 Yellow rectangle	$1\frac{3}{4}$″	x	3″
Wings	1 Gray rectangle	$\frac{1}{2}$″	x	9″
Black crayon, pencil				

Vocabulary: yellow jacket, wasp, thorax, abdomen, antennae, crooked, "L"

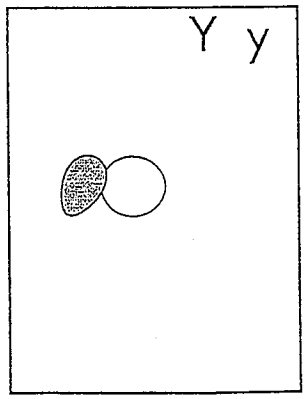
Directions:



1. **Background/letter:** light blue rectangle and letter
   - Place the light blue rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the light blue rectangle; place it in the upper right corner



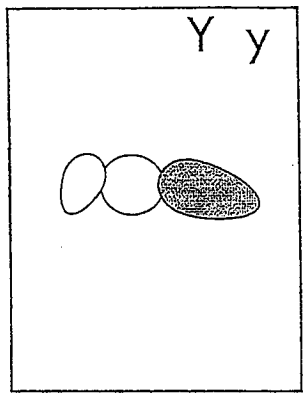
2. **Thorax:** black square
   - Cut off the corners and round to make a circle for the thorax
   - Put a dot of glue on the thorax; glue the thorax to the middle of the light blue rectangle



3. **Head:** smaller yellow rectangle
   - Hold the rectangle in a vertical position; cut off the top corners and round; turn the rectangle upside-down; cut off the corners; make the cuts bigger than on the other end so the head will be a little pointed; round off the top
   - Put a dot of glue on the head; glue the head to the left side of the thorax with the rounder end overlapping the thorax a little; slant it down a little

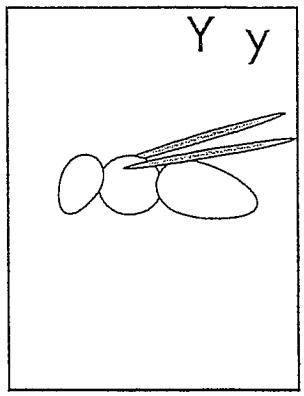
4. Abdomen: larger yellow rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round; turn the rectangle upside-down; cut off the corners; make the cuts bigger than on the other end so the abdomen will be a little pointed; round off the top
- Put a dot of glue on the tail; glue the tail to the right side of the thorax with the rounder end overlapping the thorax a little; slant it down a little



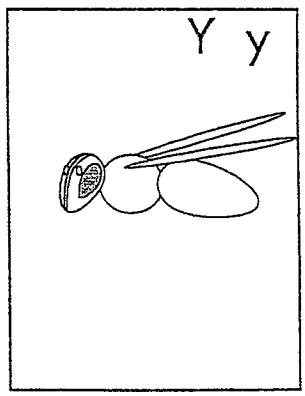
5. Wings: gray rectangle

- Fold the rectangle; cut off the corners of the folded rectangle to make the wings pointed; open and cut apart to make two wings
- Put a dot of glue on each end of one of the wings; lift the thorax; glue the wing under the middle of the thorax; make it slant upward
- Glue the other wing to the middle of the front of the body; make it slant upward



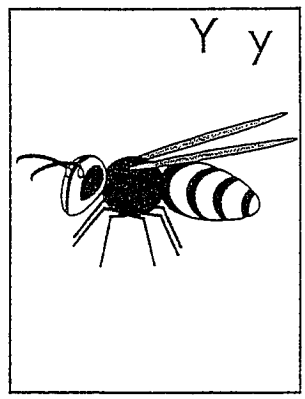
6. Markings: black crayon

- Use a black crayon to make a curved line from the top of the head to the bottom
- Use a black crayon to make two unfilled circles for the eyes
- Use a black crayon to make an oval on the side of the head



7. Markings/antennae: black crayon

- Use a black crayon to make two long curved antennae near the top of the head
- Use the a black crayon to make six legs on the bottom of the thorax; make them look like crooked, upside-down "L"s
- Use a black crayon to make four curved lines on the abdomen



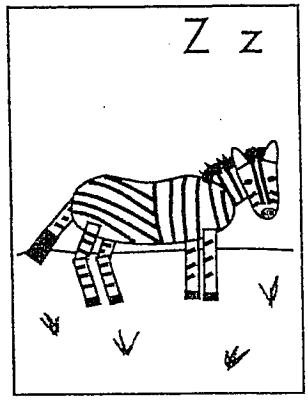
8. Name: pencil

- Turn your picture over and write your name in small letters in the bottom left corner

Zebra

Materials:

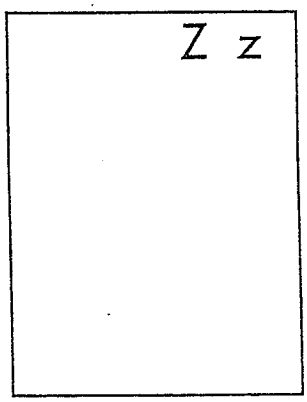
Background	1 ~~Tan rectangle~~ green	9"	x	12"
Letter				
Body	1 White rectangle	3"	x	5"
Neck	1 White rectangle	$1\frac{1}{2}$"	x	2"
Head	1 White rectangle	$1\frac{3}{4}$"	x	$2\frac{1}{2}$"
Ears	1 White rectangle	$\frac{3}{4}$"	x	$2\frac{1}{2}$"
Legs	1 White rectangle	$\frac{3}{4}$"	x	12"
Hooves	1 Black rectangle	$\frac{3}{4}$"	x	2"
Tail	1 White rectangle	$\frac{1}{2}$"	x	$2\frac{1}{2}$"
Tail (end)	1 Black rectangle	$\frac{1}{2}$"	x	$\frac{3}{4}$"
Green and black crayons, pencil				



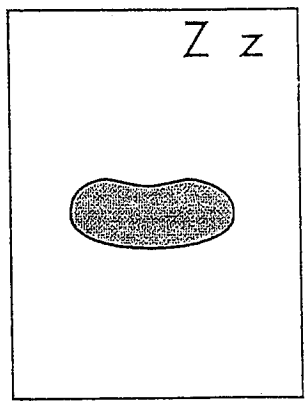
Note: We recommend that this lesson be directed to the whole class, step-by-step, at kindergarten level. Display the pieces in the order to be used to help the students select the correct piece for each step.

Vocabulary: zebra, tan, fringe, hooves, "U", mane, stripes, base line, tufts

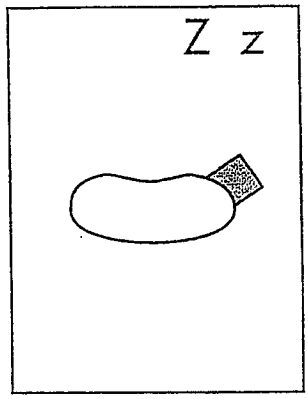
Directions:



1. **Background/letter:** tan rectangle and letter
   - Place the tan rectangle on the table in a vertical position
   - Put a dot of glue on each corner of the back of the letter; glue the letter to the tan rectangle; place it in the upper right corner

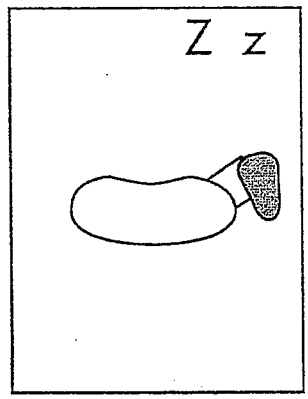


2. **Body:** largest white rectangle
   - Cut off the corners and round to make a long oval for the body; hold the oval in a vertical position; cut a wide "U", a smile, out of the side
   - Put a dot of glue on each end of the body; glue the body to the tan rectangle in a horizontal position with the curved cut at the top; place it a little below the middle and closer to the left side to leave room for the neck and head



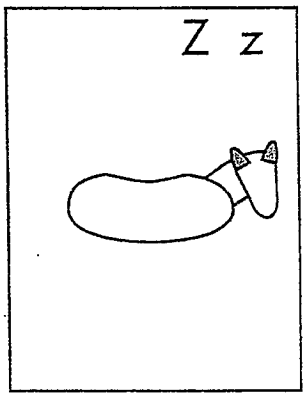
3. Neck: middle-sized white rectangle

- Put a dot of glue on the neck; lift the right side of the body; glue the neck under the top of the end of the body in a horizontal position; make it slant up a little



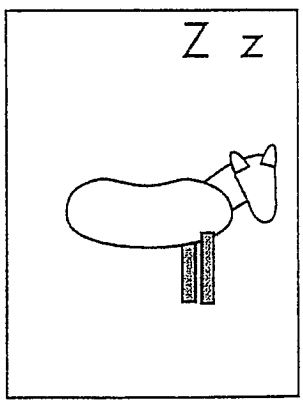
4. Head: next-largest white rectangle

- Hold the rectangle in a vertical position; cut off the top corners and round to make the top of the head
- Turn the rectangle upside-down; cut off the top corners to make the nose; make the cuts long so the nose will be narrower than the top of the head
- Put a dot of glue on the head; glue the head to the neck with the narrower end at the bottom; slant the nose outward a little



5. Ears: smallest white rectangle

- Fold the rectangle in half; hold the folded rectangle in a vertical position; cut off the top corners and round; open and cut apart on the fold line to make two ears
- Put a dot of glue on each ear; glue the ears to the top of the head with the straight end at the bottom; make them overlap the head a little

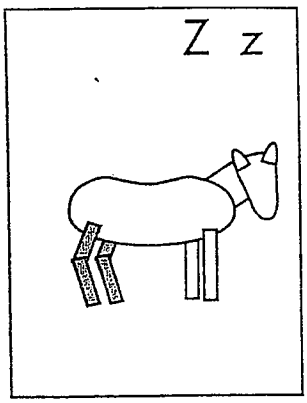


6. Front legs: longest white rectangle

- Fold the rectangle in half; open and cut apart on the fold line to make two shorter rectangles; save one of the rectangles for the back legs
- Fold the other rectangle in half; open and cut apart on the fold line to make two rectangles for the front legs
- Put a dot of glue on one of the legs; lift the front of the body and glue the leg under the body in a vertical position
- Glue the other leg to the top of the front of the body in the same way

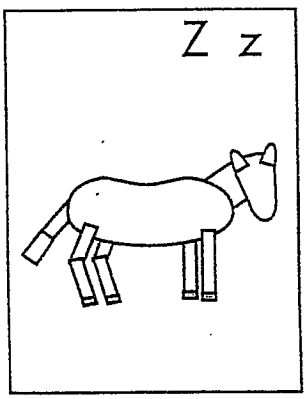
7. Back legs: white rectangle saved from Step 6

- Fold the rectangle in half; fold it in half again; open and cut apart on the fold line to make four shorter rectangles for the back legs
- Put a dot of glue on one of the rectangles; lift the back of the body; glue the leg under the body near the end; slant it backward a little; put a dot glue on the end of the rectangle; glue another rectangle to it for the bottom of the leg; slant it forward a little
- Glue the other leg to the end of the body in the same way but on top of the body; place it behind the other back leg



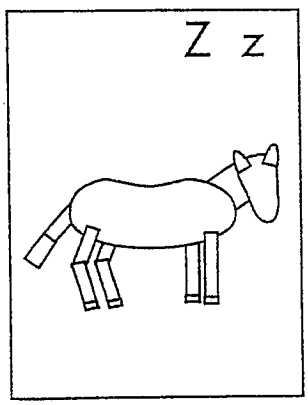
8. Tail: shorter white rectangle and smaller black rectangle

- Put a dot of glue on the white rectangle; lift the body and glue the tail under the body; make it slant down
- Hold the black rectangle in a vertical position; fringe one end of the rectangle
- Put a dot of glue on the end of the tail; glue the black rectangle to the tail with the fringe at the end



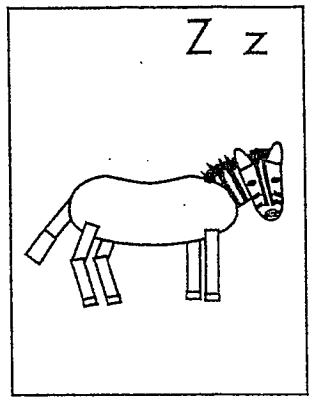
9. Hooves: longer black rectangle

- Fold the rectangle in half; fold it in half again; open and cut apart on the fold lines to make four rectangles for the hooves
- Put a dot of glue on the end of each leg; glue the hooves to the legs in a horizontal position



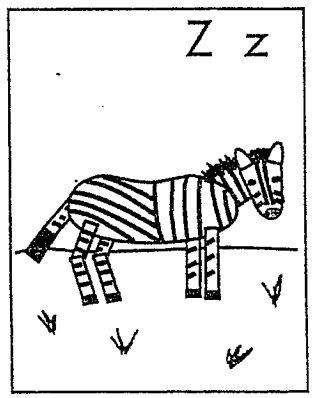
10. **Markings:** black crayon

- Use a black crayon to make a mane on the top of the neck and top of the head between the ears; make short up-and-down lines to make it look like hair
- Use a black crayon to make two circles for the eyes
- Use a black crayon to make an upside-down "U" for the nose; fill it in very lightly with a black crayon; make two small circles for the nostrils
- Use a black crayon to make two vertical lines from the top of the head to the nose
- Use a black crayon to make two short, horizontal lines on each side of the face below the eyes



11. **Markings:** black and green crayons

- Use a black crayon to make four black stripes on the tail
- Use a black crayon to make vertical stripes on the front of the body
- Use a black crayon to make slanted stripes on the back of the body
- Use a black crayon to make stripes on the legs
- Use a green crayon to make a horizontal base line from one side of the tan rectangle to the other
- Use a green crayon to make some tufts of grass below the base line



12. **Name:** pencil

- Turn your picture over and write your name in small letters in the bottom left corner
